

# LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Alpha: Blanca Alvarado School

CDS Code: 43693690125526

School Year: 2023-24

LEA contact information:

Jin Yun

Principal

(408) 780-0831

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

## Budget Overview for the 2023-24 School Year

### Projected Revenue by Fund Source

This chart shows the total general purpose revenue Alpha: Blanca Alvarado School expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Alpha: Blanca Alvarado School is \$8,703,825, of which \$6,311,322 is Local Control Funding Formula (LCFF), \$1,128,451 is other state funds, \$7,250 is local funds, and \$1,256,802 is federal funds. Of the \$6,311,322 in LCFF Funds, \$1,667,230 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

# LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Alpha: Blanca Alvarado School plans to spend for 2023-24. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Alpha: Blanca Alvarado School plans to spend \$8,645,624 for the 2023-24 school year. Of that amount, \$4,104,731 is tied to actions/services in the LCAP and \$4,540,893 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Within the school's General Fund Budgeted Expenditures, there are some core services that are not included within the LCAP. This includes services such as Core Teachers and Administrators and operational expenses.

## Increased or Improved Services for High Needs Students in the LCAP for the 2023-24 School Year

In 2023-24, Alpha: Blanca Alvarado School is projecting it will receive \$1,667,230 based on the enrollment of foster youth, English learner, and low-income students. Alpha: Blanca Alvarado School must describe how it intends to increase or improve services for high needs students in the LCAP. Alpha: Blanca Alvarado School plans to spend \$1,734,438 towards meeting this requirement, as described in the LCAP.

# LCFF Budget Overview for Parents

## Update on Increased or Improved Services for High Needs Students in 2022-23

This chart compares what Alpha: Blanca Alvarado School budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Alpha: Blanca Alvarado School estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2022-23, Alpha: Blanca Alvarado School's LCAP budgeted \$1,527,692 for planned actions to increase or improve services for high needs students. Alpha: Blanca Alvarado School actually spent \$1,486,652 for actions to increase or improve services for high needs students in 2022-23.

The difference between the budgeted and actual expenditures of \$-41,040 had the following impact on Alpha: Blanca Alvarado School's ability to increase or improve services for high needs students:

Actual revenues decreased relative to original projections, and those revenues were spent fully.

# Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Alpha: Blanca Alvarado School	Jin Yun Principal	jyun@alphapublicschools.org (408) 780-0831

## Plan Summary [2023-24]

### General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Alpha: Blanca Alvarado School (ABA) is part of the Alpha Public Schools network, whose mission is: We believe that all children have a fundamental right to an excellent education. Alpha Public Schools will ensure that all of our scholars develop the academic skills and leadership habits required to succeed in college and live with integrity.

Led by principal Jin Yun and staffed by a talented and energetic staff, ABA is a small, safe and tuition-free community school that serves students in grades TK-8. The school was named after Blanca Alvarado, a longtime public official, community leader and youth advocate in Santa Clara County. As the first in her family and community to assume public office, Blanca Alvarado’s leadership provides great inspiration for our students — many of whom will be the first in their families to attend college and pave the way for their own families and communities. Blanca Alvarado serves approximately 388 students, 85% of which are low-income. The school’s demographic profile is 88% Latino, 6% Asian, 3% White, 1.5% Filipino, and less than 1% Black, American Indian, and Pacific Islander. We serve a student body that is 58% English Learner and 10% Students with Special Needs. There is a strong parent community that provides support to the school, staff, and students.

### Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

This school year, we saw the release of CA School Dashboard data for the first time since 2019. Alpha Public Schools continues to focus efforts on evaluating available state and local data to identify our LCAP areas of success and greatest areas of progress. Alpha Blanca Alvarado is proud of our community of students, staff, parents and guardians that are focused and dedicated to ensure that each and every

student thrives. While we continue to see the impacts COVID-19 and distance learning had on our student population, we have a lot to be proud of and celebrate.

Here are some of our successes in making progress toward meeting our LCAP goals:

- 48.6% of our Multi Language Learners made progress toward English language proficiency as measured by the CA School Dashboard
- 49% of all students met their Typical Growth and Exceeding Typical Growth goal for the Spring NWEA MAP assessment in ELA, up from 46% in spring of 2022

According to the spring family engagement survey:

- 94% of families agree that the school listens to family voice in input and decision making
- 97% of families feel the school staff listen to parents when they have questions, concerns, or ideas.
- 90% of families feel a sense of belonging and connectedness to the school community
- 98% of families are satisfied with the level of instruction that students receive
- 90% of students “believe my school was successful in providing students with effective support academically, socially, and emotionally.”

By continuing to implement the following actions and strategies, we believe we will build upon our successes and ensure that all students are given the opportunity to succeed:

This year we saw improved, robust, and consistent coaching taking place and will continue to support our Assistant Principals as they coach and develop our teachers and build strong systems of effectiveness (Action 3.4)

We continue to see strong student outcomes from our teachers that have been with Blanca for a long period of time. The Blanca leadership team will continue to collaborate with our network-wide Talent team and ensure we are incorporating effective sustainability and retention strategies (Action 6.6)

Our All-Staff data stepbacks were very impactful this school year and we will continue to leverage these spaces to monitor student data, identify performance gaps, and hone in on specific action steps to better support students (Action 3.5)

## Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

In analyzing our local and state data, we have identified the following areas of greatest need that will require further attention in SY 23-24. Please see the LCAP Actions below for more detail on the strategies being incorporated for SY 23-24

Chronic Absenteeism: As reported on the 2022 CA School Dashboard, our Chronic absenteeism was at a Very High status for all student groups. The data breakdown is as follows:

- All students: 37.3%
- English Learners: 38.9%
- Hispanic: 39.6%
- Socioeconomically Disadvantaged: 40.7%
- Students with Disabilities: 30.4%

Attendance for both scholars and staff continued to be a challenging area this school year. We saw many of these challenges in our middle school grades where we had teacher turnover difficulties in our 7th and 8th grade, which played a role in student attendance throughout the year as well. We also had our Dean of Students leave in the middle of the year. This position plays a large role in supporting students and families accessing mental health counseling alongside equipping students and staff with strategies that will help students feel safe, motivated, and challenged in classrooms and around campus in order to increase attendance. Goal 5, Action 5.1 will shift the focus from overall attendance to chronic absenteeism with efforts to minimize chronic absence through systems/procedures according to a tiered system of interventions, including data review, supportive conferences, staff/team touchpoints, and school-wide culture. We will also implement a greater focus on the services that our Alpha Parent Learning Center (Action 4.1) and collaborate with and identify stronger communication with our Parent Learning Center Lead to provide resources and support for Alpha families through education and connections to resources in order to leverage the importance of attendance.

English Language Arts: As reported on the 2022 CA School Dashboard, our ELA data was at a status of Low for all student groups. The data breakdown is as follows:

- All students: 35.9 pts below standard
- English Learners: 65.7 pts below standard
- Hispanic: 46.7 pts below standard
- Socioeconomically disadvantaged: 45.3 pts below standard

Math: As reported on the 2022 CA School Dashboard, our ELA data was at a status of Low for all student groups. The data breakdown is as follows:

- All students: 61.9 pts below standard
- English Learners: 87.1 pts below standard
- Hispanic: 75.1 pts below standard
- Socioeconomically disadvantaged: 70 pts below standard

In order to address our areas of need, there are several key action steps we will take that our highlighted in several of our LCAP Actions for the 23-24 school year:

Goal 1: We've hired a Dean of Students to support the implementation of our multi-tiered intervention strategies. The Dean of Students & Campus Supervisor work directly with students, and will also support teachers and other staff to equip them with strategies that will help

students feel safe, motivated, and challenged in classrooms and around campus.

Goal 2: We were unable to hire an English Language Development Specialist (Action 2.1) this school year and we are thrilled to have already hired for this role for school year 23-24. We have a high population of English learners and believe having a strong teacher in this position will help improve our systems and support for our newcomers, small group instruction, and EL integrated instructions. Having a strong ELD Specialist to start the year, with an emphasis on small group support and strengthening our integrated and designated programs will serve to address the current gaps we are seeing in our academic performance between All students and our English Learners.

Goal 3: Academic Achievement: We will introduce a new ELA curriculum, Amplify's Core Knowledge Language Arts (CKLA), this year as highlighted in Action 3.1

## LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

This year, Alpha Blanca Alvarado continued to go through its annual LCAP planning process that involved engaging with many school and community stakeholders. The process was inclusive of reflecting on our current school year practices, actions and strategies, and LCAP goals. Based on discussions with our school staff and input from families and students, we will continue with our LCAP Goal focus areas of:

Goal 1: We will have a particular focus on improving our tiered supports in order to ensure all of our students are receiving effective academic and SEL supports.

Goal 2: Through our continued focus on literacy, we will provide training for all instructional staff on ELA and ELD strategies and build a strong system for consistent and targeted data monitoring (grade level, school level, network level).

Goal 3: We will increase achievement for all students, as demonstrated by assessments and course grades, through a comprehensive academic program that will prepare students to succeed in college.

Goal 4: Engage parents through communication, learning opportunities, and collaboration to promote student success. Goal 5: Create a welcoming learning environment where students will feel safe, motivated, and challenged.

Goal 6: Hire, develop, sustain, and value a high quality faculty & staff.

Key features and changes emphasized throughout this year's LCAP which will be a focus for our school next year consist of the following:

Goal 1: We've hired a Dean of Students to support the implementation of our multi-tiered intervention strategies. The Dean of Students & Campus Supervisor work directly with students, and will also support teachers and other staff to equip them with strategies that will help students feel safe, motivated, and challenged in classrooms and around campus.

Goal 2: We were unable to hire an English Language Development Specialist (Action 2.1) this school year and we are thrilled to have already hired for this role for school year 23-24. We have a high population of English learners and believe having a strong teacher in this position will help improve our systems and support for our newcomers, small group instruction, and EL integrated instructions.

Goal 3: Academic Achievement: We will introduce a new ELA curriculum, Amplify's Core Knowledge Language Arts (CKLA), this year as highlighted in Action 3.1

Goal 4: As we continue to strive to always improve our communication with parents and families, we will be switching communication programs and implementing Konstella for the SY 23-24. This will align with other Alpha schools and will improve support from our network home office.

Goal 5: While we continue to receive positive ratings on our operations and facilities, we will be focusing on a number of key improvements: Maintain and improve schools operations team performance through developing ops team specific scope and sequence of professional development, continuation of quarterly walkthroughs, and the further codification/documentation of systems through the operations playbook (Action 5.5). Additionally, in order to address the continued high chronic absenteeism rates, Action 5.1 will support and maintain high attendance, and minimize chronic absence through systems/procedures according to a tiered system of interventions, including data review, supportive conferences, staff/team touch points, and school-wide culture

Additionally, Alpha Blanca's LCAP will serve as our Additional Targeted Support and Improvement Plan (ATSI). Based on California's approved COVID-19 Addendum, ATSI eligibility determinations in 2022-23 will be based on only one year of Dashboard results (i.e., the 2022 Dashboard). Schools are eligible for ATSI if one or more student groups meet one of the following criteria:

- All indicators at the lowest status level; or
- All indicators at the lowest status level but one indicator at another status level

The first criterion applies for all student groups that have at least one state indicator with a n-size 30 or greater. The second criterion applies for all student groups that have two or more indicators that have met the n-size 30 or greater. As a result of the above criteria, Alpha Blanca's Students with Disabilities student group was identified for ATSI based on their performance on the Chronic Absenteeism and Suspension Rate Indicators. As such, we have engaged with our educational partners throughout our LCAP process to ensure our LCAP effectively incorporates the necessary Actions to support our Students with Disabilities not only academically, but also to decrease chronic absenteeism and suspension rates. Our first goal of the LCAP is focused on our students with disability outcomes and the focus of our Actions are targeted toward this specific student group. We've also incorporated targeted Actions under Goal 5 to reduce both suspensions and chronic absenteeism.

# Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

## ***Schools Identified***

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

NA

## ***Support for Identified Schools***

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

n/a

## ***Monitoring and Evaluating Effectiveness***

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

n/a

# Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

At Alpha: Blanca Academy, we believe that engagement from all educational partners is key to the successful implementation of our program. Throughout our LCAP development process, we consulted with the following educational partners: administrators, teachers, non-instructional staff members, students, School Site Council (SSC) members, English Learner Advisory Committee (ELAC) members, and other parents of our students. Please see below for the various ways in which stakeholders have been engaged:

**Annual Family Survey** – This survey was administered in April. The survey included statements for families to provide their input on the school's engagement efforts and their perspectives on student experience. Questions centered on school safety, belonging, efforts to include family voice in school decision making, and satisfaction with instruction and levels of preparedness for their students. In addition to the above focus areas, we also asked families to respond directly to our LCAP Actions giving them an opportunity to provide insight into the direction of our LCAP for SY 23-24.

**Annual Student Survey** – Student Culture Surveys were administered two times during the year. Questions centered on school safety, belonging, student voice, classroom preparation, and teacher evaluation questions. In addition to the above focus areas, we also surveyed students in April asking them to respond directly to our LCAP Actions giving them an opportunity to provide insight into the direction of our LCAP for SY 23-24.

**LCAP Staff Engagement Survey** – This survey was administered to all staff members in April and 93% of the staff completed it. The survey asked staff members to consider our current LCAP Goals and Actions and gave them an opportunity to provide insight into the direction of our LCAP for SY 23-24.

**SSC and ELAC meetings** – Our SSC and ELAC met quarterly this past year on Zoom and in person when applicable, and parents had the opportunity to discuss student growth, successes, and challenges. Parents shared what was and was not working about our program and Actions outlined in the LCAP and what supports their children needed. Our SSC serves as our LCAP Advisory Committee and spends additional meeting time providing LCAP input and reviewing draft and final LCAPs. Below are the dates that we conducted our SSC and ELAC meetings:

SSC: September 28, October 26, December 7, January 25, March 22, May 3

ELAC: March 22, May 24,

**Parents Association Meetings** — These meetings took place quarterly this past year, providing families with the opportunity to give input on the work happening at the school and our LCAP goals for the coming year.

**Staff Meetings** – Staff meetings took place weekly, and staff members consistently analyzed data related to student academic success, attendance, and social-emotional supports and belonging.

**Lead Team Meetings**—The leadership team met monthly to plan for the leading of professional development for the entire staff, driving decisions around academic and social-emotional supports and needs. The Lead Team was also in charge of student and adult facing committees focused on culture and DEI

**SELPA** - Our LCAP was sent to our SELPA for review and comment on June 5th

Public Board Hearing - we held a public hearing prior to the official approval of our LCAP to provide the public an opportunity to review and comment on our LCAP Draft on 6/14/23  
Public Board Approval: 6/21/23

#### A summary of the feedback provided by specific educational partners.

Throughout our engagement process, several themes emerged from the following educational partner groups:

##### Families:

Majority of families want to see current LCAP actions continue

Expressed high levels of satisfaction with the school and the feeling of joy throughout the whole school

More cultural days

More SEL small groups with students

##### SSC/ELAC:

Concerns for hiring. Focus on the dean and ELD specialist

##### Staff:

Additional EL support

Majority of staff want to see current actions continue with some modifications

Experiencing high levels of joy factor

More consistency around observations

Need more consistent opportunities to collect and review data, make plans, track interventions, and improve use of data analysis tools

##### Students

Between 82% and 91% of students responded favorable to the surveys questions:

LCAP Goal 1: 90% responded favorably to "I believe my school was successful in providing students with effective supports both academically and socially and emotionally."

LCAP Goal 2: 82% responded favorably to "I believe I have improved my literacy skills this school year."

LCAP Goal 3: 86% responded favorably to "I believe I increased my academic achievements this school year."

LCAP Goal 4: 85% responded favorably to "I believe my school does a good job of communicating with families."

LCAP Goal 5: 82% responded favorably to "I feel safe, motivated, and challenged at school. I feel safe, motivated, and challenged at school."

LCAP Goal 6: 91% responded favorably to "I believe I have high quality teachers at my school."

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

We heard from our staff and families that they wanted to see our Actions stay the same for next year as they are seeing a lot of progress, but they also communicated that they wanted some modifications and additions to the Actions for SY 22-23. Based on the themes outlined above from our educational partners, the feedback was incorporated into our LCAP in the following ways:

Goal 1: We've hired a Dean of Students to support the implementation of our multi-tiered intervention strategies. The Dean of Students & Campus Supervisor work directly with students, and will also support teachers and other staff to equip them with strategies that will help students feel safe, motivated, and challenged in classrooms and around campus.

Goal 2: We were unable to hire an English Language Development Specialist (Action 2.1) this school year and we are thrilled to have already hired for this role for school year 23-24. We have a high population of English learners and believe having a strong teacher in this position will help improve our systems and support for our newcomers, small group instruction, and EL integrated instructions.

Goal 3: Academic Achievement: We will introduce a new ELA curriculum, Amplify's Core Knowledge Language Arts (CKLA), this year as highlighted in Action 3.1

Goal 4: As we continue to strive to always improve our communication with parents and families, we will be switching communication programs and implementing Konstella for the SY 23-24. This will align with other Alpha schools and will improve support from our network home office. We will also leverage Konstella to communicate more frequently with families to establish and set up more cultural days for our families and staff.

# Goals and Actions

## Goal

Goal #	Description
1	<p>We will have a particular focus on improving our tiered supports in order to ensure all of our students are receiving effective academic and SEL supports.</p> <ul style="list-style-type: none"> <li>We will support teachers to understand and utilize multi-tiered instructional systems.</li> <li>We are supporting teachers to implement ELD curricula and exploring ways to measure fidelity of implementation of the curricula.</li> <li>Our school is creating a structure for grade level and special educators to work as a team to monitor students' academic progress.</li> </ul> <p>(Broad Goal, State Priority 4)</p>

An explanation of why the LEA has developed this goal.

In identifying our primary initiatives, we went through a process of input/feedback that included forming an advisory committee, collecting student, staff, and family input, and using academic data to identify needs.

Our most recent data dashboard shows that overall, we have room for improvement especially in ELA (22.1 point DFS), and among our students with disabilities and English Learners.

From our stakeholder input, we found the following patterns that resulted in us focusing on this primary initiative for 2021-22:

- While staff is familiar with MTSS through monthly PDs and grade level meetings, there is room to grow around actively understanding and implementing supports.
- While there is data analysis and progress monitoring, our schools needs to improve consistency of use within the support systems
- We need a clearer school-wide structure/metric for assessing fidelity of ELD program implementation
- Students and families share that our reach block and ELD program has been a strong support structure, but we need to further increase access and opportunities of additional support.

## Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Average rating (4 being the highest) on the following questions on the spring administration of the school culture survey: Empathy, Problem Solving, Communication and Advocacy, and Well Being.	Spring 2021 K-1: 4.0  Spring 2021 5-8: 3.3	K-4: TBD 5-8: 82.7% (3.3)	22-23 Student Culture Survey (1-5 scale: Empathy: 3.7 Problem Solving: 3.5 Communication and Advocacy: 3.4 Well Being: 3.2		3-8: 3.5
% of students will improve their speaking proficiency domain scores by one level on the Summative ELPAC.	41% (18-19; last available)	20-21 Summative ELPAC Speaking Well Developed: 47.49% Somewhat/Moderately : 31.05% Beginning to Develop: 21.46%	21-22 Summative ELPAC Speaking: Well Developed: 41.96% Somewhat/moderately : 35.27% Beginning to Develop: 22.77%		55%
% of students with disabilities will meet their Typical Growth and Exceeding Typical Growth goal for the Spring NWEA MAP assessment (ELA)	ELA: 27.59% met or exceeded	Data coming soon	SY 22-23: 38.78%		45%

## Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Dean of Students	Dean of Students will continue to support the implementation of our multi-tiered intervention strategies. The Dean of Students will work directly with students, and will also support teachers and other staff to equip them with strategies that will help students feel safe, motivated, and challenged in classrooms and around campus.	\$113,458.00	Yes
1.2	Partnership between Ed Specialist and Teachers	All teachers will have a weekly support meeting focused with our Education Specialists, during which they will review academic data for our SWDs and create action plans based on the data.	\$111,207.00	No
1.3	Mental Health Counselors & Partnership with FACTR	School will provide access to student and family mental health counseling through school-based counselors and external providers (FACTR)	\$95,331.00	No
1.4	Academic Interventionists	Academic Interventionists to support instruction in the classroom, and provide targeted support to small groups of students and one to one support, including executing on ELA intervention strategies during the REACH block.	\$457,001.00	Yes
1.5	Focused Students with Disabilities Supports	Supports for Students with Disabilities will include iterating on reading intervention groups for struggling readers; implementing common phonics curriculum for struggling readers; improve on collaborative structures between GE and SPED staff members to support student access of GE curriculum. We will continue to engage and consult with our SELPA around programming, and participate in SELPA led professional development. Additionally, we will continue to participate at the CEO council and attend monthly professional learning network meetings so that Alpha continues to take the necessary steps to ensure the most accurate and up-to-date information related to students with disabilities is taken back to the larger school community.	\$676,266.00	No

Action #	Title	Description	Total Funds	Contributing
1.6	Data Specialist Role	Alpha network will continue to staff a Data Specialist to support school sites with data analysis and data cycles. This role will lead professional development efforts to guide staff in facilitating academic and behavior data talks/analysis with an emphasis on data broken down by significant student groups. This support will also work closely with Academic Interventionists in identifying tier 2 and 3 intervention supports.	\$31,932.00	No

## Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Majority of our Actions planned for school year 22-23 were implemented as expected. The most significant difference was with our Action 1.1. We originally hired a Dean of Students for the school year, but the individual transitioned out at the beginning of the school year and we were without a Dean for the rest of the year. This impeded on our ability to fully support our multi-tiered intervention strategies in order to support teachers and other staff to equip them with strategies that will help students feel safe, motivated, and challenged in classrooms and around campus.

All teachers held weekly support meetings with Education Specialists, during which they reviewed academic data for students with disabilities (SWDs) and created action plans based on the data. These meetings provided teachers with the opportunity to analyze student data collaboratively and develop effective strategies to address the specific needs of SWDs.

Alpha Blanca also provided access to mental health counseling services for students and their families through school-based counselors and we partnered with an external provider, FACTR. By offering these services, the school addressed the mental health and well-being of students, recognizing the importance of a comprehensive approach to education that considers the social-emotional aspects of learning. We also continued to staff Academic Interventionists who supported instruction in the classroom. These interventionists provided targeted support to small groups of students as well as one-on-one assistance. During the REACH block (a designated time for intervention and enrichment), the Academic Interventionists executed ELA intervention strategies. Their presence in the classroom ensured that students received personalized attention and additional support to improve their academic performance.

Additionally, we successfully collaborated with the Data Specialist to support school sites with data analysis and data cycles. The Data Specialist played a crucial role in leading professional development efforts, guiding staff in facilitating discussions and analysis of academic

and behavioral data. The focus was on examining data broken down by significant student groups, such as students with disabilities or students from different demographic backgrounds. This role also worked closely with Academic Interventionists in identifying tier 2 and 3 intervention supports for students who required additional assistance.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences between budgeted expenditures and estimated actual expenditures.

An explanation of how effective the specific actions were in making progress toward the goal.

We saw a mix of the degree of effectiveness from the implementation of our Actions. Our team continues to focus on support for our students with disabilities through the hiring of our SPED Paraprofessionals, focused data analysis with the help of our network data team, and collaboration with our ed specialists and paraprofessionals during grade level meetings. Our reading interventionists continue to provide targeted support in both small group and one-on-one settings, which has led to an increase in ELA and Math SBAC performance for our students with disabilities. Our scholars who receive additional services grew 57.8 pts in ELA and 29.5 pts in Math since 2019, which was the last time students were tested on the SBAC.

Additionally, we saw small gains in our Summative ELPAC results from 20-21 to 21-22. In 20-21, 14.93% of students were at level 4 and in 21-22 we had 15.56%. Due to the ELD Specialist vacancy, we saw a small dip in our speaking domain from 20-21 to 21-22. In 21-22, 47.49% of our students were Well Developed on the Speaking Domain while in 21-22 only 41.96% of students were Well Developed. We are hopeful that with the addition of a new ELD Specialist (Action 2.1) we will continue to see growth toward English proficiency for our English learner students.

On our spring NWEA testing administration we saw 38.78% of our students with disabilities meeting their Typical Growth and Exceeding Typical Growth goal in ELA, which was a decline of 9%.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on input from our educational partners, we will maintain our goal 1 and corresponding actions. We have hired our new Dean of Students (Action 2.1) for school year 23-24 and will be able to fully support the implementation of our multi-tiered intervention strategies in collaboration with our mental health counselor and ed specialist, equipping teachers and staff with strategies that will help students feel safe,

motivated, and challenged in classrooms and around campus. Additionally, we will update our first metric for SY 23-24 to reflect a new set of SEL questions that are asked on our Student Culture survey. We no longer asked "• My teacher encourages me to keep trying when class work is difficult (K-4) and When I feel like giving up on a difficult task, my teachers will always help me keep trying until I figure it out (5-8). We moved to an overall ranking for the categories of Empathy, Problem Solving, Communication and Advocacy, and Well Being.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

# Goals and Actions

## Goal

Goal #	Description
2	Through our continued focus on literacy, we will provide training for all instructional staff on ELA and ELD strategies and build a strong system for consistent and targeted data monitoring (grade level, school level, network level). (Broad Goal, State Priority 4,8)

An explanation of why the LEA has developed this goal.

We went through a process of input/feedback that included forming an advisory committee, collecting student, staff, and family input, and using academic data to identify needs.

From our stakeholder input, we found the following patterns that resulted in us focusing on this primary initiative for 2021-22:

- While staff trainings have been provided, there is shared sentiment that there needs to be increased norming around strategies and how these are implemented across classrooms.
- Additionally, teachers shared through feedback that they can explain how instruction is made more accessible to students for language development and the next step in ensuring there is fidelity in curriculum implementation is to have targeted data monitoring.

## Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
% of students will make or exceed typical growth goals for the STAR Reading assessment	Baseline will be collected in 2021-22	SY 21-22: 30%	SY 22-23: 21%		60%
% of Students reclassified this year	1.8%	SY 21-22: 8.9%	SY 22-23: 7%		15%

# Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Staff an English Language Development Specialist	School will continue to staff an English Language Development specialist to provide designated instruction and teacher support for integrated ELD.	\$101,676.00	Yes
2.2	Enhance Assessment and Progress Monitoring Structures	School will assess students using standardized assessments to identify, monitor, and adjust supports for implementation of ELD curricula and ELA strategies.	\$227,434.00	Yes
2.3	Differentiated Professional Development for Staff	Teachers and staff will attend and engage in differentiated PD each Wednesday, which may include lesson support, curriculum support, cross-grade collaboration time, as well as a focus on implementing ELD strategies.	\$479,271.00	Yes
2.4	Improve use of Data Analysis Tools	Use of data analysis tools in order to effectively progress monitor students and use the data during individual coaching sessions, leadership team meetings, and department meetings.	\$288,817.00	No

## Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

We were able to implement the majority of our actions for goal 2 as planned. The most significant difference from our planned actions and implemented actions was with our Action 2.1. We were unable to successfully hire an English Language Development Specialist. In the absence of an ELD specialist, the school leader team and network academic teams provided support in focusing on EL compliance and Professional Development. While we did not spend the significant amount of time we had hoped during the school year monitoring and addressing instruction, data analysis, and tiered supports, we know this is a place where we will continue to prioritize for the 23-24 school year. We also saw positive impacts on our new teacher training focused on ELD strategies, and will continue to develop our new teachers in the 23-24 SY. Additionally, we were able to leverage our weekly grade level meetings to share best practices and strategies among teachers. All humanity teachers and elementary multiple subject teachers attended monthly ELD trainings offered by the network to enhance their ELD practices. We have a high population of English learners and believe having a strong teacher in this position will help improve our systems and support for our newcomers, small group instruction, and ELD integrated instructions. We saw improved monitoring of our ELPAC assessment results, while we are still in the initial phases of identify monitoring systems for our EL Achieve curriculum results, and we continued to disaggregate our MAP and STAR data in order to adjust our supports for students.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences between budgeted expenditures and estimated actual expenditures.

An explanation of how effective the specific actions were in making progress toward the goal.

We did not meet our growth targets on our STAR assessment for the school year 22-23. 21% of students met or exceeded their typical growth goals for the STAR Reading assessment, down 9% from the previous year. Our English Learners being reclassified stayed relatively flat this year with a slight decline. We reclassified 7% of English Learners for the SY 22-23, which is down 1.7% from the previous year. While our RFEP percentage declined minimally, we are hopeful with the hiring of our English Learner Development Specialist, we will see growth for all our English Learners.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on educational partner feedback and LCAP analysis, we will be maintaining our Goal 3 and its corresponding Actions. We have successfully hired our ELD Specialist (Action 2.1) for the 23-24 school year, and believe with this employee in place, we will be able to fully implement our listed Actions for Goal 2 and see increased RFEP data and STAR reading assessment data.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

# Goals and Actions

## Goal

Goal #	Description
3	We will increase achievement for all students, as demonstrated by assessments and course grades, through a comprehensive academic program that will prepare students to succeed in college. (Broad Goal. State Priorities 2, 4, 7, 8)

An explanation of why the LEA has developed this goal.

BA is committed to ensuring that as students return to full time learning, there is a heightened focus on students' academic achievement and learning outcomes this coming year.

In analysis of our most recent dashboard data, while there were key areas of academic success over previous years, there were a number of areas of focus for continued improvement. These included a 22.1 point distance from standard (DFS) for ELA and a 5.7 point DFS for Math. In addition, Students with Disabilities and English Learners also showed higher DFS, especially on ELA. Internal assessments and student grades show a similar pattern.

Input received from stakeholders through the LCAP/Site-Based Initiative setting process highlighted the need to improve ELA and Math achievement for all students, particularly in response to the learning loss experienced over the pandemic. Goals 1 & 2 focus on the ELA, English Language Development, and MTSS related initiatives that will enhance student success. This goal will take a comprehensive approach to improving learning for students and particular subgroups.

## Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24

3.1	School will purchase high quality curriculum	School will purchase and provide training for high quality curriculum, such as EL Achieve (ELD), Fountas & Pinnell (ELA), Amplify (Science), CKLA (ELA), Eureka (Math), and History Alive (Social Studies).	\$94,801.00	No
3.2	Provide Blended Programming & Software for all students	School will provide a wide range of blended programming, accessible to all students to scaffold class instruction and provide additional learning and practice outside of class.	\$35,000.00	No

Action #	Title	Description	Total Funds	Contributing
3.3	Chromebooks & Hotspots for All Students	School will provide chromebooks and hotspots in a 1:1 environment for all students, in order to reinforce classroom instruction.	\$175,605.00	Yes
3.4	Weekly Teacher Coaching	All teachers will have a weekly observation and coaching meeting with a school leadership team member, to continuously improve their instructional practice.	\$202,510.00	No
3.5	Quarterly All-Staff Stepback Days	Quarterly All-Staff Stepback Days will be held to analyze and create action/learning plans around NWEA, formative, and culture data assessments.	\$84,662.00	No

## Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

There were no substantive differences in our planned actions and actual implementation of the actions for school year 22-23. We continued to provide a wide range of blended programming options accessible to all students, inclusive of 1:1 Chromebooks for all students. These programs were designed to scaffold classroom instruction and offer additional learning opportunities and practice outside of the traditional classroom setting. By offering diverse modalities of learning, the school aimed to cater to various learning styles and promote student engagement and achievement.

Alpha Blanca continued to invest in high-quality curriculum and provided training for curriculum materials. The selected curricula included EL Achieve for English Language Development (ELD), Fountas & Pinnell and Studysync for ELA, Amplify for Science, Eureka for Math, and National Geographic for Social Studies. This action aimed to ensure that students receive instruction aligned with the standards and designed to foster their knowledge and skills in these subject areas. Training was provided to teachers to effectively implement the chosen curricula, enhancing their instructional practices.

All teachers participated in weekly observation and coaching meetings with instructional coaches. These meetings aimed to support continuous improvement in instructional practice. Through regular observations, feedback, and coaching, teachers had the opportunity to enhance their teaching skills and address any areas of growth or development. In order to provide high quality coaching experiences that leads to teacher development, all coaches attended Grow Together PD equipping coaches with strength based coaching approaches.

Alpha Blanca continued to participate in the Quarterly All-Staff Stepback Days, where all staff members came together to analyze and create action/learning plans. These sessions focused on various assessments, including NWEA, attendance, formative, and culture data assessments. By reviewing and analyzing the assessment data, the staff collaborated to identify areas of improvement, develop strategies, and create action plans to enhance student learning, instructional practices, and overall school culture.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

The school invested more heavily in technology than originally planned, increasing access with both devices and other upgrades.

An explanation of how effective the specific actions were in making progress toward the goal.

Following the similar trends that we see across many schools, our SBAC ELA and Math scores made minimal growth. Our ELA Indicator is 35.9 pts below standard and our Math Indicator is 61.9 pts below standard. Throughout the 22-23 school year, we continued to create dedicated space to analyze student data and leverage tools, on-site school cards, and data story practices, in order to effectively progress monitor students and use the data during individual coaching sessions, leadership team meetings, and department meetings.

As a result of our dedicated staff and support from the Alpha network data specialist, and consistent support from our instructional coaches who provided meaningful feedback after weekly classroom observations, we saw growth in our MAP spring ELA outcomes. In ELA, our students grew by 3% from the prior year to 49% meeting/exceeding their typical growth goal. While we saw an increase in our outcomes for ELA, we saw a small decline in our math outcomes for students meeting/exceeding their typical growth goal. 50% of our students met or exceeded their spring growth goals, which was a decline of 5% from the prior year.

With the effective data analysis protocols put into place this school year, progress monitoring, and tiered supports, we are hopeful the spring administration of the SBAC will see significant growth for all our student groups.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

During the 22-23 school year, we will continue with our present Goal and Action Steps as outlined above with the small exception of adding a new ELA curriculum to Action 3.1. We no longer will be using Fountas & Pinnell and will be implementing Core Knowledge Language Arts. As part of purchasing a new curriculum comes the development of a detailed implementation plan that includes timelines, resource allocation, and professional development for teachers and ensuring that all necessary resources, such as textbooks, instructional materials, and technology, are in place before starting the school year. Alpha leadership will provide ongoing professional development for teachers to ensure they have the necessary skills and knowledge to effectively deliver the new curriculum and monitor the implementation process.

regularly and evaluate its effectiveness. This will include using student performance data and teacher feedback to make necessary adjustments and improvements.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

# Goals and Actions

## Goal

Goal #	Description
4	Engage parents through communication, learning opportunities, and collaboration to promote student success. (Broad Goal: State Priority #3)

An explanation of why the LEA has developed this goal.

20-21 has highlighted the importance of what we consider are the pillars of building an authentic community with families in support of student learning: communication & transparency, authentic engagement, and partnership in decision making. Our survey data shows that we have had successes but also have room to progress this coming year:

- 89% of families feel welcome and heard by the school
- 88% of Families who feel the school does a good job of family engagement
- 85% of Families who agree that school listens to family voice in input and decision making.

Input received from stakeholders through the LCAP / Site-Based Initiative setting process highlighted the need to build upon the successes this year of:

- The consistency and quality of communication;
- Frequency and attendance of school events and workshops
- Partnership in decision making within structures, such as SSC and ELAC.

## Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
% of Families who feel welcome and heard by the school (according to bi-annual survey)	89%	SY 21-22: 100%	SY 22-23: 97%		90%
% of Families who feel the school does a good job of family	88%	SY 21-22: 100%	SY 22-23: 93%		90%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
engagement (according to bi-annual survey)

4.1	Parent Learning Center Supports	Maintain and improve services from Alpha Parent Learning Center & Parent Learning Center Lead to provide resources and support for Alpha families through education and connections to resources.	\$46,618.00	No
4.2	Improve Family / Staff Communication	<p>Improve various ways to communicate with families and collect authentic input and feedback, including:</p> <ul style="list-style-type: none"> <li>• Increased informal touchpoints between staff and families</li> <li>• Family surveys in Fall and Spring with follow up meetings</li> <li>• Family conferences - 3 times per year</li> <li>• Further development of School Site Council structure with improved attendance</li> <li>• Further development of English Language Advisory Committee structure with improved attendance</li> <li>• Ensuring School culture survey is shared and discussed with families.</li> </ul>		No

Action #	Title	Description	Total Funds	Contributing
4.3	Parent Communication via Remind	Improved parent communication systems, particularly with the use of Konstella to reach all families.	\$2,000.00	No
4.4	Parent Leadership Trainings	Maintain parent leadership training meetings to help families develop the skills to advocate for their students.	\$2,500.00	No
4.5	Robust Parent Community Events	Create a community programming scope and sequence for the school year, including workshops, family events, and Cafecito.	\$6,500.00	No
4.6	Senior Director of Advocacy and Community Engagement (SD of ACE)	We will continue to staff SD of ACE to form partnerships with external parties to bring additional services and resources to students and families, including our parent learning center. In addition, this role will help train parent leaders to develop skills in advocating for their students and fostering their leadership skills.	\$42,700.00	No

## Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

The Actions outlined in Goal 4 have been successfully implemented to make progress toward our goal of increasing engagement for all of our families. To foster community engagement, the school holds at least one community programming event per quarter, separate from regularly scheduled meetings such as SSC, ELAC, or Cafecito. These events provide opportunities for families to come together and participate in school activities. We have seen more involvement from families this year and are seeing parents take the lead on planning kinder promotion and monthly treats to the teaching staff.

To improve family communication, we have prioritized the use of Remind during the SY 22-23. We have achieved a high level of participation by ensuring that 100% of Blanca families are signed up on Remind and actively participating by the end of the fourth week.

To support families, we maintain services from the Alpha Parent Learning Center and Parent Learning Center Lead. These resources provide educational support and connect families to various resources.

We continue to conduct parent leadership training meetings to empower families and equip them with the skills to advocate for their students. Collaborating with the Senior Director of ACE, the school forms partnerships with external parties to bring additional services and resources to students and families. The parent learning center plays a role in this process by providing training and support to develop parents' advocacy and leadership skills.

Overall, these implemented actions demonstrate our commitment to creating a supportive and engaged community, fostering strong family-school partnerships, and providing resources and opportunities for families to actively participate in their children's education.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences between Budgeted Expenditures and Estimated Actual Expenditures

An explanation of how effective the specific actions were in making progress toward the goal.

Our Actions, as implemented during the SY 22-23, were effective in making progress toward our goal. We have seen more families in school this year thanks to quarterly conferences, monthly SSC and ELAC meetings, in-person cafecitos, additional award ceremonies, and volunteer opportunities for families to chaperone field trips and support at school. We also continue to strengthen our Parents Association and along with greater family engagement overall, we continue to see progress toward our family engagement data as outlined below:

93% of Families who feel the school does a good job of family engagement

94% agreed that The school listens to family voice and input when making decisions.

97% of Families who feel welcome and heard by the school

The effects of COVID continue to impact our families and community, which has created the need to be more flexible and creative when we think about family engagement. We continue to offer opportunities both in person and over zoom, which has led to increased attendance at our ELAC meetings.

While we are satisfied with our progress here, we would like to improve on the number of regular parent volunteers and overall campus presence opportunities for our families now that our office is back to normal. We will continue to leverage our Senior Director of Advocacy and Community Engagement to bring additional services and resources to students and families.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

We will continue with the current goal, metrics, desired outcomes and actions based on family input and our outcomes that we've seen, with the exception of a software shift in Action 4.3. We will be shifting our family communication software from Remind to Konstella. This will include educating Blanca parents on how to enroll new families and communicate best practices for using the new tool. We will continue to leverage our Parent Learning Center and the supports available to families and students, expand community events, volunteer opportunities on campus, and strengthen our ELAC and Cafecito.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

# Goals and Actions

## Goal

Goal #	Description
5	Create a welcoming learning environment where students will feel safe, motivated, and challenged. (Broad Goal. State Priorities 1,5,6)

An explanation of why the LEA has developed this goal.

Alpha is committed to fostering an environment that allows students to develop the leadership skills they will need to bring positivity and change to their communities. Our ability to foster this environment is dependent on creating classrooms where students feel safe, motivated, and challenged. Analysis of student attendance, engagement, suspension, and survey data show that students are engaged (96% attendance/engagement rate), and scored a 3.34 average (out of 4) on the student culture survey.

Based in stakeholder input through the LCAP / Initiative setting process, we hope to continue/maintain the positive and joyful school culture that we have been building, through supports such as the work of our Dean of Students, PD for teachers, and a focus on student leadership.

## Measuring and Reporting Results

Action #	Title	Description	Total Funds	Contributing

## Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

We have successfully implemented the majority of the actions outlined in Goal 5 to make progress toward our goal of creating a welcoming learning environment where students will feel safe, motivated, and challenged.

To address attendance and minimize chronic absence, we have established systems and procedures based on a tiered intervention approach. This includes regular data review to identify patterns and intervene as necessary, conducting supportive conferences with students and their families, providing staff and team touchpoints for collaboration and support, and fostering a school-wide culture that emphasizes the importance of attendance.

To track student behavior and culture data effectively, we utilized systems like the Dean's List to monitor student behavior trends. This data supports analysis, problem-solving for effective strategies, and communication with families to address any concerns. To ensure access to student and family mental health counseling through the availability of school-based counselors and external providers, such as FACTR. Recognizing the importance of non-academic student experiences, we increased resources dedicated to enhancing these experiences, such as student events and field trips. To improve operational efficiency, we developed a specific scope and sequence of professional development for the operations team, continued quarterly walkthroughs for performance evaluation, and further documented systems through an operations playbook.

To support the implementation of multi-tiered intervention strategies, we successfully maintained our Dean of Students who works directly with students and supports teachers and staff in equipping them with strategies to create a safe, motivated, and challenging learning environment.

Lastly, the school rolled out the use of shared project management software to manage the operations compliance calendar. This software enables efficient organization, planning, and tracking of tasks related to operational compliance.

While the majority of these actions were implemented as planned, we did not continue our partnership with the City Peace Project this year. Instead, much of the work of engaging students through mentorship and social-emotional learning was supported internally by our counselors and school team, through structures such as advisory.

Overall, the successful implementation of these actions demonstrates our commitment to student attendance, behavior, mental health, non-academic experiences, and operational efficiency, fostering a supportive and conducive learning environment for all students.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences between Budgeted Expenditures and Estimated Actual Expenditures

An explanation of how effective the specific actions were in making progress toward the goal.

The Actions outlined in Goal 5 and described in detail above, were mostly effective in making progress toward our goal. Chronic absenteeism continues to be high for our school site and larger community. Alpha Blanca's chronic absenteeism is a Very High Status on the CA School Dashboard at 37.3%. We have adjusted Action 5.1 to shift our focus on monitoring chronic absenteeism, which is described in more detail below.

The work we are doing with FACTR (Action 5.3) and Deanslist (Action 5.2) has led to positive outcomes with our suspension rates (All: 3.55%) and attendance rates (89.8%).

We continued to set operations performance goals for the year, monitor a monthly compliance calendar, and performed operations walkthroughs that covered a range of school, finance, facilities, and data management procedures.

Evidence of our success around operations is from our family survey, which showed 93% of Families who agree that the school's facilities are clean and welcoming. Evidence of our success also shows in our Facilities Inspection Tool (FIT) score of 98.7% overall, which translated to a "good" rating according to the tool.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

We will continue with our current goal, and most metrics, desired outcomes and actions. While we feel good about our operations and facilities work, we will work to improve the schools operations team performance through developing ops team specific scope and sequence of professional development, continuation of quarterly walkthroughs, and the further codification/documentation of systems through the operations playbook (Action 5.6).

We continue to not partner with the City Peace Project (Previously Action 5.5), so this action will remain as discontinued. Given that chronic absenteeism continues to be high for our campus, Action 5.1 will shift the focus from overall attendance to chronic absenteeism with efforts to minimize chronic absence through systems/procedures according to a tiered system of interventions, including data review, supportive conferences, staff/team touchpoints, and school-wide culture.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

# Goals and Actions

## Goal

Goal #	Description
6	Hire, develop, sustain, and value a high quality faculty & staff (Broad Goal, State Priority #1)

An explanation of why the LEA has developed this goal.

More than ever, it is clear to us through our data that having fully credentialed, experienced, and talented teachers is a key enabler in our student success. Those teachers who have been with us the longest have shown to have higher success, both academically and in building strong, lasting relationships with students. This highlights the importance of investing greatly in ensuring the teachers we hire are highly and appropriately qualified, that there are many structures in place for development, and that our structures and compensation systems reflect this value to retain high quality teachers and staff.

All of stakeholder groups, through the LCAP / initiative setting process, have highlighted the importance of hiring, developing, and retaining high quality faculty and staff as a key enabler in our success in achieving all of our other goals.

## Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
% of core teachers who have an appropriate credential or permit to teach.	100%	SY 21-22: 100%	SY 22-23: 91%		100%
% of teachers who receive regular, weekly CCSS-aligned professional development, including ELD PD.	100%	SY 21-22: 100%	SY 22-23: 100%		100%
Average learning environment score on	6.2	5.6	SY 22-23: 3.9		6.2

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
the Staff Insight Survey					
% Teacher Retention	89%	SY 21-22: 60%	SY 22-23: 62%		85%

## Actions

Action #	Title	Description	Total Funds	Contributing
6.1	School & Network will use a variety of strategies to hire a diverse, highly-qualified, and appropriately credentialed teaching staff	School & Network will use a variety of strategies to hire a diverse, highly-qualified, and appropriately credentialed teaching staff, including: <ul style="list-style-type: none"> <li>• Network-based teacher recruitment team</li> <li>• Partnership with Alder Graduate School to run an Alpha-specific Teacher Residency program</li> <li>• Family, staff, and student inclusion within interview/hiring process for key roles</li> <li>• Transparent teacher salary scale, with differentiated pay depending on certification status</li> </ul>	\$79,831.00	No
6.2	All teachers provided with certification/credential support	All teachers will be provided with certification/credential support with a bi-annual review around assignment and credential status.	\$11,404.00	No
6.3	Leadership Pathway for Teachers	Providing teachers with leadership opportunities, including being mentor to teacher residents and others and being a department or teacher lead with additional responsibilities.	\$44,556.00	No
6.4	Teacher access to Professional Development	In addition to internal Professional Development, Teachers have the resources to choose external Professional development according their own development goals.	\$59,801.00	No

Action #	Title	Description	Total Funds	Contributing
6.5	Healthy Teacher Compensation & Benefits	Implementing additional teacher salary and benefit compensation, such as providing additional mental health and wellness days, and regularly reevaluating our teacher salary scale and other compensation opportunities to ensure our teachers are compensated fairly relative to similar opportunities.	\$115,027.00	No
6.6	Faculty and staff retention and sustainability	This work includes aligning on a shared vision of leadership development at Alpha, with pathways that enable effective teachers and leaders to grow their careers at Alpha. Our approach will include a focus on elevating staff voices to enhance sustainability & work environment. We will also implement a range of strategies identified by TNTP as effective teacher retention strategies.	\$45,618.00	No
6.7	Introduce new performance rubrics for teachers and for instructional coaches	Finalize, roll out, and refine (as needed) a teacher evaluation rubric that is aligned with Alpha's Vision of Excellent Teaching. Finalize, roll out, and refine (as needed) a coaching evaluation rubric that is aligned with Alpha's Vision of Excellent Coaching. The coaching rubric will be used to support the development of all those at Alpha who coach teachers (primarily Assistant Principals, but also Principals, members of the network Academic Team, and potentially teacher leaders such as Mentors).	\$34,213.00	No

## Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

The Actions outlined in Goal 6 were implemented as planned. To ensure a diverse and qualified teaching staff, Blanca and the Alpha network have employed various strategies. These included establishing a network-based teacher recruitment team, partnering with Alder Graduate School to run an Alpha-specific Teacher Residency program, and involving family, staff, and students in the interview and hiring process for key roles. These efforts help attract and select talented educators who reflect the diverse needs of the school community.

The school has implemented a transparent teacher salary scale, with differentiated pay based on certification status. This incentivizes teachers to obtain appropriate credentials and recognizes their expertise and qualifications. We continued to provide teacher certification and credentialing support, with a bi-annual review of assignments and credential status. This ensures that teachers have the necessary support and resources to maintain their certifications and credentials, thereby enhancing their professional growth and effectiveness. Teachers were provided with leadership opportunities, such as mentoring teacher residents and assuming additional responsibilities as department or teacher leads. This allows experienced teachers to share their expertise and contribute to the growth and development of their peers.

In addition to internal professional development, teachers had the flexibility to choose external professional development opportunities aligned with their development goals. We implemented additional teacher salary and benefit compensation packages, including additional mental health and wellness days. Regular evaluations of the teacher salary scale and other compensation opportunities were conducted to ensure fair compensation compared to similar opportunities.

To support teacher retention, Alpha aligned on a shared vision of leadership development, offering pathways for effective teachers and leaders to advance their careers within the organization. The focus is on elevating staff voices, enhancing sustainability, and creating a positive work environment. The strategies identified by TNTP (The New Teacher Project) for effective teacher retention were also implemented.

Lastly, teachers were developed through various means, including 1:1 coachings, professional development sessions, walkthroughs, and grade level/department meetings. These development opportunities focused on prioritized indicators from teacher and coach rubrics, enabling teachers to enhance their instructional practices and professional growth.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences between Budgeted Expenditures and Estimated Actual Expenditures

An explanation of how effective the specific actions were in making progress toward the goal.

Our actions were effective in supporting our goal, though ensuring strong hiring and retention of teachers was increasingly challenging this past year as a reflection of the overall teacher talent environment. We continued to put heavy resources (time and money) into teacher development, including utilizing external PD providers (Rethinc), continuing 1:1 coaching, and establishing a more complete and updated teacher rubric. Teachers are more invested in delivering high quality lessons that are aligned to standards as a result of receiving training from Rethinc and teacher rubric calibration sessions.

We also continued to invest heavily in various strategies around hiring diverse and highly qualified teaching staff, including offering tuition reimbursement, credentialing support, and robust talent sourcing strategies.

We also increased our teacher salary scale mid-year, as well as researched and ran focus groups around benefit and overall compensation-related improvements. Based on the feedback and research we did, we will be implementing a number of benefit improvements such as

higher employer-paid coverage for families, additional dental/orthodontic benefits, and childcare discounts. When teachers participated in organizing and managing any after school activities, they received a stipend to compensate their efforts and time being spent. We see that this has made some initial improvements in our teacher/staff retention for next year (72% expected retention, up from 61% in our previous year).

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

As part of our engagement process with staff and families, we have modified Action 6.6 to to focus on a specific deep dive into sustainable work schedules for teachers. Next year will be year 2 of Action 6.7, and we have made minor adjustments to the language of the action to reflect the following “Continue to develop teachers (through 1:1 coachings, PD sessions, walkthroughs, grade level/department meetings) around prioritized indicators from the teacher & coach rubrics.”

**A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.**

# Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2023-24]

Projected LCFF Supplemental and/or Concentration Grants	Projected Additional LCFF Concentration Grant (15 percent)
\$1,667,230	187,250

## Required Percentage to Increase or Improve Services for the LCAP Year

Projected Percentage to Increase or Improve Services for the Coming School Year	LCFF Carryover — Percentage	LCFF Carryover — Dollar	Total Percentage to Increase or Improve Services for the Coming School Year
37.35%	16.39%	\$635,233.00	53.74%

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

## Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

Unduplicated funds will be principally directed to low-income and English Learners, the majority of our student body. The student body is 92% unduplicated students, therefore the needs of English learners and low-income students comprise the needs of the majority of our students and represent the focus of our actions. The funds will be effective in increasing and improving the level of academic support, interventions, professional development, enrichment, SEL supports, as outlined below in our Actions that are being funded with supplemental and concentration funds.

When reviewing our data, and based on input and feedback from our teachers, staff, and students, we identified that through an instructional lens, the performance of our low-income students and our English Learners lags behind that of our overall population. In order to address this growth area related to our support of low-income students and english learners, we have chosen to primarily focus on a number of actions and strategies around building aspects of our MTSS framework and literacy supports (ELA and English Language Development), that we believe will be especially effective for our unduplicated student population. The actions and strategies are:

- Action 2.1: School will continue to staff an English Language Development specialist to provide designated instruction and teacher support for integrated ELD. This strategy will support our English Learners through direct support and through the work that the ELD specialist does through PD and coaching of teachers.

- Action 1.4: Academic Interventionists to support instruction in the classroom, and provide targeted support to small groups of students and one to one support, including executing on ELA intervention strategies during the REACH block.
- Action 1.6: Alpha network will hire a Data Specialist to support school sites with data analysis and data cycles. This role will lead professional development efforts to guide staff in facilitating academic and behavior data talks/analysis with an emphasis on data broken down by significant student groups. This support will also work closely with Academic Interventionists in identifying tier 2 and 3 intervention supports.
- Action 2.3: On-going school-wide and department specific PD based on current academic and instructional needs, which may include lesson support, curriculum support, cross-grade collaboration time, as well as an increasing focus on implementing ELD strategies.
- Action 2.2: Continue to iterate on our standardized assessment structure, which will help us identify, monitor, and adjust supports/strategies to maximize student growth in service of our MTSS framework, with a particular focus on additional assessments and analysis towards implementing interventions (ELPAC, Star, and internal).
- Action 1.1: School will hire and train a Dean of Students to support the implementation of our multi-tiered intervention strategies. The Dean of Students will work directly with students, and will also support teachers and other staff to equip them with strategies that will help students feel safe, motivated, and challenged in classrooms and around campus.

These actions and strategies above are provided on a school-wide basis, and we expect that our more effective MTSS framework and related strategies will benefit all students at our school. Still, based on the data and our stakeholder input, we know these strategies will be more significantly directed towards and will impact our low income and english learner students.

Each of these actions and strategies will provide additional human resources that will enhance our MTSS and overall student culture strategies by providing direct support to students, PD support for teachers, as well as culture data analysis (culture surveys, attendance, referrals) that will more quickly identify trends, needed interventions, and action plans based on these data. These actions and strategies will be provided on a school-wide basis, and we expect that this will benefit all students at our school, with a more significant impact on our low-income students.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

As share above, we have identified actions and strategies that address our primary goals around enhancing our MTSS framework, ELA/ELD programming, and positive student culture. These actions and strategies were developed with our low-income and english learner students in mind, as they are meant to increase and/or improve services towards these groups. Below is a description of how we will do so:

- Academic Interventionists to support instruction in the classroom, and provide targeted support to small groups of students and one to one support, including executing on ELA intervention strategies during the REACH block. These are additional FTE relative to

previous years in order to support the execution of our MTSS framework, and their work with low income and english learners will be prioritized. In addition, the amount of time spent in direct support and the strategies used that will be targeted towards individual students, will improve and increase services.

- School will continue to staff an English Language Development specialist to provide designated instruction and teacher support for integrated ELD. This strategy will support our English Learners through direct support and through the work that the ELD specialist does through PD and coaching of teachers.
- School will assess students using standardized assessments to identify, monitor, and adjust supports for implementation of ELD curricula and ELA strategies. The data from these assessments is critical in providing information to our MTSS teams, ELD specialist, and teachers to ensure students receive the right supports. Data analysis that we use in educlimber and other tools will highlight EL student progress (including ELPAC data).
- Teachers and staff will attend and engage in differentiated PD each Wednesday, which may include lesson support, curriculum support, cross-grade collaboration time, as well as a focus on implementing ELD strategies. this focus on ELD strategies is meant to support building instructional skills for all of our teachers to support english learners and those RFEP who have transitioned recently. This is an added focus relative to previous years.
- Dean of Students & Campus Supervisor to support the implementation of our multi-tiered intervention strategies. The Dean of Students & Campus Supervisor work directly with students, and will also support teachers and other staff to equip them with strategies that will help students feel safe, motivated, and challenged in classrooms and around campus. This action will increase both the capacity/FTE directed towards this work, and also more efficiently direct the time and strategies used by these roles within the context of an MTSS framework (team, shared interventions, action plan). Our low income students will be a primary focus given the data that shows higher suspension and referral rates.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

As named above, the school was able to leverage increases associated with additional concentration grant funding to support its LCAP priorities:

Goal 1: We will have a particular focus on improving our tiered supports in order to ensure all of our students are receiving effective academic and SEL supports.

Goal 2: Through our continued focus on literacy, we will provide training for all instructional staff on ELA and ELD strategies and build a strong system for consistent and targeted data monitoring (grade level, school level, network level).

Goal 3: We will increase achievement for all students, as demonstrated by assessments and course grades, through a comprehensive academic program that will prepare students to succeed in college.

Goal 4: Engage parents through communication, learning opportunities, and collaboration to promote student success.

Goal 5: Create a welcoming learning environment where students will feel safe, motivated, and challenged.

Goal 6: Hire, develop, sustain, and value a high quality faculty & staff.

With the additional concentration funding projected to be approximately \$187,250, we were able to fund additional positions for instructional support that focus on providing tiered support and intervention for our unduplicated populations.

<b>Staff-to-student ratios by type of school and concentration of unduplicated students</b>	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

*For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at [lcff@cde.ca.gov](mailto:lcff@cde.ca.gov).*

## Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
  - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

# Plan Summary

## Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

## Requirements and Instructions

**General Information** – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

**Reflections: Successes** – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

**Reflections: Identified Need** – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

**LCAP Highlights** – Identify and briefly summarize the key features of this year's LCAP.

**Comprehensive Support and Improvement** – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

## Engaging Educational Partners

### Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC Section 52064[e][1]*). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <https://www.cde.ca.gov/re/lc/>.

### Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

#### **Local Control and Accountability Plan:**

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.
- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

**Prompt 1:** “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

**Prompt 2:** “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

**Prompt 3:** “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)

- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions
- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

## Goals and Actions

### Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

### Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.

- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

### **Focus Goal(s)**

**Goal Description:** The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

### **Broad Goal**

**Goal Description:** Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

### **Maintenance of Progress Goal**

**Goal Description:** Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

**Explanation of why the LEA has developed this goal:** Explain how the actions will sustain the progress exemplified by the related metrics.

### **Required Goals**

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

**Consistently low-performing student group(s) criteria:** An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA’s eligibility for Differentiated Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.
- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA’s eligibility for Differentiated Assistance.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

**Low-performing school(s) criteria:** The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the “All Students” student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.
- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

### **Measuring and Reporting Results:**

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric:** Indicate how progress is being measured using a metric.
- **Baseline:** Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome:** When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome:** When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome:** When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24:** When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023–24)
Enter information in this box when completing the LCAP for <b>2021–22</b> .	Enter information in this box when completing the LCAP for <b>2021–22</b> .	Enter information in this box when completing the LCAP for <b>2022–23</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2023–24</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2024–25</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2021–22</b> or when adding a new metric.

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

**Actions:** Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (**Note:** for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

**Actions for English Learners:** School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in EC Section 306, provided to students and professional development activities specific to English learners.

**Actions for Foster Youth:** School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

**Goal Analysis:**

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

## **Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students**

### **Purpose**

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

### **Requirements and Instructions**

**Projected LCFF Supplemental and/or Concentration Grants:** Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.

**Projected Additional LCFF Concentration Grant (15 percent):** Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

**Projected Percentage to Increase or Improve Services for the Coming School Year:** Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

**LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

**LCFF Carryover — Dollar:** Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

**Total Percentage to Increase or Improve Services for the Coming School Year:** Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

**Required Descriptions:**

**For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.**

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

**Principally Directed and Effective:** An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;

- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

**COEs and Charter Schools:** Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

## **For School Districts Only:**

### **Actions Provided on an LEA-Wide Basis:**

**Unduplicated Percentage > 55 percent:** For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

**Unduplicated Percentage < 55 percent:** For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

**Actions Provided on a Schoolwide Basis:**

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

**For schools with 40 percent or more enrollment of unduplicated pupils:** Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

**For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils:** Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

**A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.**

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

**A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.**

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

## Action Tables

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

## Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.

- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.
- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action’s number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering “All,” or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type “Yes” if the action is included as contributing to meeting the increased or improved services; OR, type “No” if the action is **not** included as contributing to meeting the increased or improved services.
- If “Yes” is entered into the Contributing column, then complete the following columns:
  - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
  - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
  - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools.” If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must

enter “Specific Schools” or “Specific Grade Spans.” Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span:** Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year,” or “2 Years,” or “6 Months.”
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.
- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
  - **Note:** For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
  - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

## Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

## Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

## Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
  - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action

was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

## LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).
- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

## Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

### Contributing Actions Table

- 4. Total Planned Contributing Expenditures (LCFF Funds)
  - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column
- 5. Total Planned Percentage of Improved Services
  - This percentage is the total of the Planned Percentage of Improved Services column
- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)
  - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

### **Contributing Actions Annual Update Table**

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- 6. Estimated Actual LCFF Supplemental and Concentration Grants
  - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- 4. Total Planned Contributing Expenditures (LCFF Funds)
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)
- 7. Total Estimated Actual Expenditures for Contributing Actions
  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)
- Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)
- 5. Total Planned Percentage of Improved Services (%)
  - This amount is the total of the Planned Percentage of Improved Services column
- 8. Total Estimated Actual Percentage of Improved Services (%)
  - This amount is the total of the Estimated Actual Percentage of Improved Services column
- Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

### **LCFF Carryover Table**

- 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)

- This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)
  - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.
 

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
- 13. LCFF Carryover — Percentage (12 divided by 9)
  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education  
January 2022
