What does the metric % mean on the document?

These are metrics that we will report of this plan

The network staff listed, are these new positions or the ones that already exist?

They already exist and they support our instructional programs.

How are we able to give more money for all the work that staff are doing to support our students during this time (small groups for students)?

This is a great push and something that we would like to give more compensation to staff. And any time that is required for them to work outside of school hours would get compensated for it.

Mental health support: addressing and educating our students about the facts about COVID so that it lowers the anxiety for students when they or someone else in their family get sick
