Initiatives passed unanimously

Reopening:

- What is the routine and frequency of hand washing throughout the day? We do have more portable hand washing stations throughout the campus and sinks with soap inside the classrooms. All students are to wash their hands upon entering and exiting the classrooms each time.
- The bill states that they would incentivize the reopening of schools and it states it will penalize the schools, will we get any money? Still waiting to see what will realistically happen but we do anticipate that we would be penalized any days we are not open after April 1 but should receive money for opening again in April.
- Is the incentivized money determined by students actually coming to campus? We are going to open TK - 8th and it is an option for families to send their students to campus.
- There are other schools that are having students on campus 2 days a week and 3 days from home, is that something that we can do? This is something that is definitely something that can be offered. This really depends on how many families would like to send their students back to campus for school. All students will be instructed by a teacher either in person or on-line for 4 hours daily (minimum). We want to be able to accommodate every family's requisition and have as many students on campus as possible so that means we are going to take the family responses seriously and with some follow up to the plans as we continue through the process.
- For students that are on campus, will there be a need for them to log back into a session once they are home? Instructional minutes vary between the different grades. 1st - 8th will have anywhere from 20 - 60 minutes of additional practice work after school.
- Will students have lunch at school? Students would not be eating on campus. We would provide lunch in a bag at dismissal
- Will the teacher in the classroom with students be teaching them or will they have a teacher online with them? Students that are on campus will have a teacher teaching them in person. They may be using their computer while on campus but the teacher will be instructing them in person.
- Will there be transportation from B&G club to school or vice versa? Also will B&G still be offering the support that they have been? This is a great question for us to get more information about. We will connect with B&G club to discuss this in more detail.

How can we provide this information to the families to help all with understanding the new procedures and expectations? Video to see how the procedures are going to look like and how students are moving throughout the day
