**SCHOOL-SITE REPORT**

1. Review Data if needed (10min)

**6:55 - 7:00pm (5 mins)**

**PUBLIC COMMENT**

Notes: None

**7:00pm**

**ADJOURNMENT**

- **MEETING ADJOURNED @**

Minutes:

- [School Council Overview](#)-Review expectations and responsibilities. Meetings will take place every 4-6 weeks. Collaborate with school leaders and parents in the community. SSC topics could include Distance learning, family events, fundraising as well as LCAP/Goal planning and Budget overview.
- Vote on SSC roles: there are 3 positions. Parents are given the opportunity to give speeches to nominate themselves
- Martha would like to be a support but not hold the president position.  
**President:** Work with the principal on preparing the agenda and posting the agenda at the school site 72 hours in advance. Monica: she is extremely proud to be a part of the school site council. She would like to be the parents voice. I want to be the president because I am always helping others. I am kind and just. I will help parents and student and will always communicate with others  
**Vice-President:** Represent the president n the assigned duties act as alternate with the president. Be familiar with the by laws: parliament procedures and robert's Rules of Order if applicable. Mireya nominates herself as the vice president. Mireya" the important thing is to be involved and to give others the platform to collaborate and share ideas Our role does not be a reason to feel bad but rather to work as a team".  
**Secretary:** Martha nominates herself as secretary and if the occasion arises as and cant make it she will delegate her duties to others.
- Feedback about our distance learning model  
 Jorge: I am a very social person and this is definitely a challenge

**Mireya:** the first week was very rough. We were having many issues with electricity, we were constantly losing power and we were getting frustrated. Right now I think we are adjusting, my son is waking up early at 7am ready to start classes

**Angel:** Hi I am an 11th grader I agree with my fellow students. I am often having to email my teachers about my due dates. We have also been testing a lot. In the beginning I was losing my internet and it was very stressful.

**Monica:** I feel very frustrated and I HAVE TO WORK AND LEAVE EVERYTHING READY FOR STUDENTS TO BE READY. I had my first notification that my student did not start school on time.

**Yxcot:** I am the JCP teacher. I wanted to talk in regard to distant learning. I am not obtaining the same participation as I was receiving before. I am still trying to figure out different platforms to help the students. There have been many times of di

**Adan:** I notice that on Wednesday that gives students a lot more work and it is taking too long. The students that don't know how to be independent learners are struggling.

**Gisela:** Hi I am an 11th grader and right now with distance learning sometimes I lose the internet and get very frustrated on Wednesday I am swamped with work.

**Martha:** I have 3 kids at home they are all still trying to find a place for the to look for a spot to work. My youngest school started school with week and we relied on the high school student to help navigate and support the youngest child. It feels like there's an invasion of space and we are navigating spaces we aren't used to navigating.

**Nario:** I agree with all the student and Mr. Yxcot. In person we are able to determine how students are doing and it is easier to support them in class. Online it is difficult and finding out new ways to adapt our in class instruction to online platforms. We are doing our best to make connections with students but it is difficult to establish this and make students feel more connected to their community.

**Claudia:**

**Alejandro:**

**Claudia:**

**How can we better support parents during distance learning:**

- 1. I thought my student was exaggerating about the amount of work. I have already talked to my student about teachers extending the work deadlines. Have students have that conversation with teachers about how things are going.**
- 2. It's very different being online since doing distance learning . Students are being given a lot more work.**
- 3. Angel: to assign less work.**
- 4. Adan: give a survey to see how long students are taking on their work.**

5. **Gisela: to have a session on how to time management so that we don't procrastinate.**
6. **Jorge: we must stay in compliance with SOE with 240 instructional minutes.**
7. **Yxcot: we must also look into the differentiation of AP and non Ap classes**

- Determine future meeting dates

Thursdays are not possible due to district meetings. Tuesdays are convenient for everyone.

October 13th @6pm

- Plan for backpack distribution(100back backpacks have been gifted)-Didn't get to it

**ACTION ITEMS:**
