School Accountability Report Card

Reported Using Data from the 2019–2020 School Year

California Department of Education

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

About Our School

Building on the strong academic results of our first school, Alpha Public Schools opened a second middle school in Fall of 2014 and Alpha: José Hernández welcomed its first 6th grade class. Like all Alpha schools, students at Alpha: José Hernández School participate in a cutting-edge blended learning model.

Like all Alpha schools, students at Alpha: José Hernández School do daily check-ins electronically so teachers can track their performance in real-time. Collecting this data after each lesson lets teachers tailor their instruction and ensure that all students grasp the concepts and are set up to achieve academic success.

Alpha: José Hernández develops students into lifelong learners who will enter high school with the academic skills, strength of character, and passion for learning to succeed in and graduate from college.

Led by principal Rosie Carlson and staffed by talented and energetic teachers, Alpha: José Hernández School is a safe and

tuition-free community school serving students in grades 5-8. The school is co-located with Alpha: Blanca Alvarado School and is authorized by the Santa Clara County Office of Education.

School Description and Mission Statement (School Year 2020–2021)

Led by principal Dr. Rosie Carlson and staffed by talented and energetic teachers, Alpha: Jose Hernandez School is a safe and tuition-free community school serving students in grades TK-K & 5-8. The school is co-located with Alpha: Blanca Alvarado School and is authorized by the Santa Clara County Office of Education. The mission of Alpha: Jose Hernandez Middle School is to provide children from high-poverty communities an education that effectively develops the academic skills and competencies of character to overcome the achievement gap, graduate from college, and become self-reliant and productive leaders. Alpha seeks to eliminate the achievement gap by inspiring thousands of children from traditionally underserved communities to become self-motivated, competent, and lifelong learners who graduate from college and serve as leaders and role models for their families and communities. We provide the rigor, structure, and support needed to guide students to academic success. We provide an excellent educational program that rests on best practices, quality professional development, and an instructional framework that allows for a strong match between learning needs and teaching methods through differentiation.

Quality, Currency, Availability of Textbooks and Other Instructional Materials (School Year 2020–2021)

Alpha José Hernández Middle School uses a variety of instructional materials. As a blended model school, students spend a significant amount of time using individualized online content accessed via personal laptop computers. Below is a description of Alpha's instructional model with respect to instructional materials: Instruction is integrated with technology. Technology is used as a tool throughout a student's experience at Alpha to provide each student with access to information stored around the world, to facilitate communication and collaboration on projects with other students, and as another vehicle through which a student can express his or her knowledge and understanding of content. Instruction properly integrated with technology allows more individualized and differentiated delivery of the curriculum. Computer-based activities allow motivated, high-achieving students to move through more challenging material at their own pace. Additionally, it helps to diagnose and remediate learning gaps for low-achieving students. These activities employ computer-based curricula that is either purchased off-the-shelf or developed by teachers using open source resources. Computer-based learning is a powerful way of engaging today's students who have a natural affinity to technology. Computer based curricula provide an additional tool for teachers to differentiate their instruction. Students are able to move at their own pace, moving faster through material they understand and repeating the more difficult sections. In addition, the multimedia capabilities of online programs enable students to visually interact with abstract concepts that are often difficult to understand when presented in traditional textbooks or lectures. The availability of online curricula and learning resources has grown tremendously over the last several years. Alpha continuously outreaches and engages the technology community so richly found in our geographic area. Our criteria for selection are that the programs:

- adhere to state/national content standards;
- provide rich, interactive, and engaging materials and activities for students;
- provide a sufficient number and variety of lessons and materials for teachers to be able to differentiate their instruction
- allow teachers to customize lessons

e. include embedded assessments

f. enable students to be largely self-directed as they progress through the course. (Ideally the programs have an “adaptive” capacity that automatically changes the difficulty level of the material based on the student’s performance.)

Further, non-technology instruction at Alpha is project-based. The use of in-depth and rigorous classroom projects facilitates learning and assesses student competence. Students use technology and inquiry to respond issue, problem or challenge. Projects link the curriculum content with current events, primary sources, scientific investigation, and students’ experiences while also allowing classroom teachers to teach and assess visual arts standards, which are integrated into many projects. Most important, project-based instruction allows students to develop the strong communication, leadership, and teamwork skills necessary to succeed in college and the global economy.

Materials and Technology: The materials used by teachers have been selected in accordance with the guidelines and recommendations provided by the California Department of Education. These materials include computers and projection devices, software programs (including Reading Plus, Achieve 3000, STMath, IXL), laboratory science materials, test preparation guides, research and reading materials, math manipulatives, maps and atlases, dictionaries and thesauruses

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and

- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

English Language Arts / Literacy (grades 3-8 and 11)	32.43%	N/A	8.33%	N/A	50%	N/A
Mathematics (grades 3-8 and 11)	23.44%	N/A	1.19%	N/A	39%	N/A

Note: Cells with N/A values do not require data.

Note: The 2019–2020 data are not available. Due to the COVID-19 pandemic, Executive Order N-30-20 was issued which waived the requirement for statewide testing for the 2019–2020 school year.

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Opportunities for Parental Involvement (School Year 2020–2021)

At AJH, family involvement is an important component of our success as a school. In addition to the school site council, families are involved in a wide variety of ways, including: Parent conferences Volunteer opportunities Bi-monthly community meetings include parent education topics such as college application process, bullying, and helping with student work; Monthly coffee/cafecitos with school leaders are opportunities for families to discuss a range of topics in support of their children. Online parent portal for families to access student attendance and grades in real-time; A parent mobile application that contains a range of relevant information and resources, including calendar, announcements, connections to the parent portal, and handbooks. Regular phone calls by teacher advisors to their students; Family conferences three times a year that are student-led; Family survey two times a year; Alpha Board meetings are open to the public, and parents are encouraged to attend. In addition, AJH has a Parent Learning Center, managed by our Parent Learning Center Manager, that identifies and facilitates various initiatives to support our family community and help minimize the barriers that families face in supporting their students.

School Safety Plan (School Year 2020–2021)

A healthy and safe environment is imperative to productive teaching and learning. Alpha has adopted and implemented a comprehensive set of health, safety, and risk management policies. These policies are based on best practices provided by the California Department of Education, as well as county and local police department recommendations. These policies have been approved by Alpha’s Board of Directors, are reviewed quarterly, and are updated as required in response to any change in conditions or operations that may affect the health and safety of students and staff. The full safety plan is located on our website and at the link provided below:
