School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2024-25 School Year

This chart shows the total general purpose revenue Alpha: Blanca Alvarado School expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Alpha: Blanca Alvarado School is $9,030,656, of which $6,451,745 is Local Control Funding Formula (LCFF), $2,018,822 is other state funds, $59,000 is local funds, and $501,089 is federal funds. Of the $6,451,745 in LCFF Funds, $1,707,178 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).
The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Alpha: Blanca Alvarado School plans to spend for 2024-25. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Alpha: Blanca Alvarado School plans to spend $9,068,892 for the 2024-25 school year. Of that amount, $5,218,000 is tied to actions/services in the LCAP and $3,850,892 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Within the school’s General Fund Budgeted Expenditures, there are some core services that are not included within the LCAP. This includes services such as Core Teachers and Administrators and operational expenses.

**Increased or Improved Services for High Needs Students in the LCAP for the 2024-25 School Year**

In 2024-25, Alpha: Blanca Alvarado School is projecting it will receive $1,707,178 based on the enrollment of foster youth, English learner, and low-income students. Alpha: Blanca Alvarado School must describe how it intends to increase or improve services for high needs students in the LCAP. Alpha: Blanca Alvarado School plans to spend $2,008,175 towards meeting this requirement, as described in the LCAP.
This chart compares what Alpha: Blanca Alvarado School budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Alpha: Blanca Alvarado School estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2023-24, Alpha: Blanca Alvarado School’s LCAP budgeted $1,554,445 for planned actions to increase or improve services for high needs students. Alpha: Blanca Alvarado School actually spent $1,653,471 for actions to increase or improve services for high needs students in 2023-24.
2023–24 Local Control and Accountability Plan Annual Update

The instructions for completing the 2023–24 Local Control and Accountability Plan (LCAP) Annual Update follow the template.

</table>
| 1      | We will have a particular focus on improving our tiered supports in order to ensure all of our students are receiving effective academic and SEL supports.  
- We will support teachers to understand and utilize multi-tiered instructional systems.  
- We are supporting teachers to implement ELD curricula and exploring ways to measure fidelity of implementation of the curricula.  
- Our school is creating a structure for grade level and special educators to work as a team to monitor students’ academic progress.  
(Broad Goal, State Priority 4) |

**Goal Analysis**

An analysis of how this goal was carried out in the previous year.
A description of any substantive differences in planned actions and actual implementation of these actions.

Throughout the LCAP cycle, our Actions for Goal 1 have been implemented with a mix of successes and challenges. This year marked a significant advancement in our approach to data-driven decision-making, with the introduction of Alpha-wide dashboards that offer comprehensive insights into student performance. A key strategic shift was the implementation of a new meeting cadence, emphasizing small group focus, which has contributed to notable successes across our programs.

One of the standout achievements has been the remarkable growth observed in our Special Education (SPED) program, attributed largely to the consistency in staffing. The same education specialists have worked with the same group of students over the past three years, with particularly stable support at the elementary level. This consistency, coupled with our improved systems for hiring and deploying high-quality Academic Interventionists (AIs) across all grade bands, has significantly bolstered our instructional capacity. This year, we achieved full staffing with high-quality AIs, marking a milestone in our efforts to provide targeted support to all students.

Furthermore, a pivotal shift in SPED site management enhanced our operational effectiveness. Transitioning from network-managed to site-managed coaching and management cycles facilitated smoother collaboration, data analysis, and problem-solving. This change has empowered our Ed Specialists and ELD Specialists, making them feel more supported and enabling them to work more effectively. As a result of these targeted actions, we saw extremely strong growth among our Students with Disabilities in Fall 2023 to Spring 2024 NWEA.
MAP data. 51% of SWDs met or exceeded their NWEA Reading growth goal, and 61% of SWDs met or exceeded their NWEA Math growth goal. This marks meaningful year over year growth and exceeds our original expected outcome.

The implementation of the FACTR program has also been successful, addressing the heightened Social Emotional Learning (SEL) needs of our students post-pandemic. The support from FACTR interns, including bilingual assistance, has been invaluable in meeting these needs.

However, the journey has not been without its challenges. Year 2 presented difficulties in establishing a clear system for SEL strategies within our Multi-Tiered System of Supports (MTSS) framework, compounded by significant staff turnover and vacancies, including the absence of a dean of students for two years. Additionally, while our SEL curriculum has seen effective application in middle school, there remains room for improvement in its integration within the elementary levels.

Leadership transitions, with 5 out of 6 leaders being new in Year 2, alongside teacher vacancies, has further complicated these challenges. The discontinuation of previously utilized MTSS tools, such as Dean’s List/EduClimber, underscored the impact of these staffing and expertise shifts. Moreover, staffing challenges specifically related to Academic Interventionists highlighted the operational hurdles faced in Year 2.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences between Budgeted Expenditures and Estimated Actual Expenditures.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

As we reflect on the various actions taken over the past three years and their effectiveness in progressing towards our 3-year target, we see a mix of how effective our actions were in meeting our goals.

We saw strong, positive results in our Spring 2024 NWEA MAP results, with 51% of SWDs meeting or exceeding Reading growth goals and 61% meeting or exceeding Math growth goals, surpassing our three-year target of 45%. This is a meaningful indicator of the effectiveness of our strategic actions, primarily due to the focused supports for students with disabilities. Key actions that contributed to these results include:

- Focused Students with Disabilities Supports: Intensive support tailored to SWDs played a crucial role in achieving these outcomes, demonstrating its effectiveness.
- Weekly Support Meetings: All teachers participated in weekly meetings with our Education Specialists to review and strategize based on the academic data of SWDs. This action facilitated targeted academic planning and intervention, proving to be a highly effective practice.
Role of Academic Interventionists: Academic Interventionists were crucial in supporting classroom instruction and providing targeted support to small groups of students, including one-on-one sessions. Their work, especially in executing ELA intervention strategies during the REACH block, significantly bolstered our instructional capacity.

Academic coaching support from ABA Principal: The ABA Principal has engaged in weekly coaching meeting with the ED Specialist, showing the priority in supporting this team member in analyzing data and problem solving together.

Our Spring 2024 Student Culture Survey data revealed that we exceeded our target in the SEL domain of empathy, while coming just short of our target in problem solving, communication, and wellbeing categories. This achievement emphasizes the effectiveness of our multi-tiered intervention strategies spearheaded by the Dean of Students, our SEL curriculum, and our partnership with FACTR for mental health counseling.

However, we did not meet our target of improving the speaking proficiency domain scores by one level on the Summative ELPAC for 55% of our English Learners. Upon reflection, this shortfall is largely due to the absence of targeted actions specifically aimed at enhancing outcomes for our English Learners under Goal 1.

Additionally, this LCAP cycle was marked by significant staffing challenges, including leadership transitions, teacher vacancies, and a need for Academic Interventionists who directly focus on English learner improvement. These issues hindered our ability to implement effective interventions consistently.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on the educator partner feedback and the annual engagement process, there are several pivotal changes to Goal 1 in the upcoming LCAP cycle aimed at improving outcomes for our significant student groups, including English learners, students with disabilities, and low-income students. The decision to update Goal 1 stems from a detailed analysis of lower performance outcomes as indicated by the CA School Dashboard and other local assessments. This analysis highlighted the necessity for a more focused goal to address the specific needs of our subgroups, ensuring alignment across the network and enhancing support and strategic resourcing.

The new Goal 1 will be “All student groups will demonstrate growth towards meeting or exceeding standards in English Language Arts (ELA) and Math.” and will include targeted actions designed to address the unique needs of our student groups:

- English Learner and Long Term English Learner Supports
- Students with Disabilities Supports
- Academic Interventionists
- Supplemental Literacy Intervention
- Tier 1 Strategy
To ensure success for our student groups, we will monitor the effectiveness of these Actions by setting aggressive 3-year targets for the following metrics:

- Local Indicator Priority 2 Survey: EL access to CCSS and ELD standards
- ELPI
- Reclassification Rates
- SBAC DFS ELA (student groups)
- SBAC DFS Math (student groups)

These actions and metrics were developed in response to feedback from educational partners and a thorough review of performance data. Based on several of our student groups receiving a Red on the CA School Dashboard academic indicators, including English Learners in ELA, and English Learners and Hispanic students in Math. The changes reflect a strategic shift towards more specialized and direct interventions that are expected to significantly impact the academic success of English learners, students with disabilities, Hispanic, and low-income students. This goal revision aims to not only address the observed performance disparities but also to enhance overall educational equity and access, ensuring that all students have the necessary support to succeed academically.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Goal Analysis

An analysis of how this goal was carried out in the previous year.
A description of any substantive differences in planned actions and actual implementation of these actions.

Our English Language Development (ELD) program has showcased significant strides through the strategic implementation of a system comprising one ELD Specialist and two Academic Interventionists (AIs), which fostered strong teamwork, effective coaching, and a robust management system. The ability of the ELD Specialist to visit various classes has been instrumental in providing feedback and ensuring the consistent application of ELD strategies across the board, with the partnership of Assistant Principals (APs) enhancing support mechanisms.

The introduction of the Data Hub played a pivotal role in streamlining the tracking of student performance data, complemented by regular STAR testing conducted monthly for students from Transitional Kindergarten (TK) through 8th grade, which commenced for middle school...
students after the winter break. Additionally, the adoption of a high-quality curriculum (CKLA) in English Language Arts (ELA) this year opened new avenues for academic excellence, as well as presenting opportunities for further development.

However, the implementation of our Actions under Goal 2 encountered its set of challenges, particularly highlighted in Year 2 by the absence of an ELD Specialist. This gap underscored the need for more professional development (PD) focused on the curriculum to empower teachers to navigate and leverage the curriculum to its full capacity efficiently and fluently. Teachers expressed a keen interest in receiving more PD, emphasizing the necessity to enhance their proficiency in utilizing the new ELA curriculum effectively, thereby maximizing student learning outcomes. The successes and challenges of implementing Goal 2 underscores an LCAP cycle of learning, growth, and the ongoing journey to improve our educational strategies and support systems.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences between Budgeted Expenditures and Estimated Actual Expenditures.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

In addressing the progress towards achieving Goal 2 related to the STAR Reading assessment and English learner reclassification rates, it becomes evident that we made significant growth based on our STAR Early Literacy/Reading results. However, staffing challenges impacted our ability to meet our original reclassification target.

ABA adjusted its assessment strategy this year to focus on STAR for grades TK-3, and NWEA MAP for all students. While ABA restarted STAR testing for all grade levels following the winter break to receive more frequent interim assessments on student progress, we did not have fall baseline data to illustrate growth across the full school year. For grades TK-3, 63% of students met or exceeded the STAR Student Growth Percentile (SGP) benchmark for a year's growth. This achievement surpasses our aggressive, original goal of 60%, demonstrating the effectiveness of our strategic actions in promoting literacy development among our youngest learners.

However, we did not meet our reclassification target of 15% for English Learners, reaching only 6% in the 23-24 school year. This outcome highlights specific areas within our strategies that require reassessment and enhancement. A significant challenge was the gap in hiring for our English Language Development (ELD) Specialist throughout the cycle. The absence of a consistent specialist hindered our ability to provide continuous and effective support for our English Learners, directly impacting their progress and the overall effectiveness of our interventions.

In response to these challenges, we have begun to see positive changes through the strategic implementation of a new system that includes one ELD Specialist and two Academic Interventionists (AIs). This configuration has facilitated strong teamwork, effective coaching, and a...
robust management system that supports both teachers and students. These steps are pivotal in building a solid foundation for instructional excellence and targeted support, laying the groundwork for future improvements in our reclassification rates.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

In the upcoming LCAP, we have made several key changes based on educational partner feedback, our performance on the CA School Dashboard, and the impact of current actions toward meeting our targets for Goal 2. As discussed in our analysis of Goal 1, we created a new Goal 1 focused on improving outcomes for our significant students groups, inclusive of our English Learners. The new Goal 1 will elevate the supports for our English Learners and the actions will be monitored by reclassification rates, CA School Dashboard academic indicators, and the NWEA MAP Assessment, which has replaced the STAR Reading Assessment for data across all grade levels.

With the actions and metrics outlined in the current Goal 2 moving to our new Goal 1, we have made changes to Goal 2 as well. The revised language for Goal 2 aims to "Support growth and achievement for all students through strong instructional practices, informed by our assessment and data strategy." This goal focuses on enhancing various aspects of our educational approach to drive student success effectively.

The new Actions under Goal 2 will focus on:

- Strengthening Instructional Practices: Engage all instructional staff in robust, differentiated professional development, which is then supported in practice through coaching, walkthroughs, and observations.
- Assessment Strategy: Continue to execute on a standardized assessment structure for all grades which will help us monitor student data and identify strategies to support student growth.
- High-Quality Curriculum: Continue the integration of high-quality, research-based curricula that aim to elevate learning outcomes across all subject areas.
- Data Strategy: Continue to build and iterate on data analysis tools to effectively gather, monitor, and use data to inform instruction.
- Online Platforms & Technology: Provide a wide range of online programming, accessible to all students to scaffold class instruction and provide additional learning and practice outside of class.
- Associate Teachers: Incorporating associate teachers to support differentiated instruction and address diverse learning needs effectively.
- Broad Course of Study: Ensuring a comprehensive curriculum that includes a wide range of subjects to support holistic student development.

To measure the effectiveness of these actions under our new Goal 2, we will closely monitor student performance metrics such as growth in SBAC (Smarter Balanced Assessment Consortium) and NWEA scores. These assessments will provide quantifiable data on student progress and help identify areas needing further improvement.
A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

**Goal Analysis**

An analysis of how this goal was carried out in the previous year.
A description of any substantive differences in planned actions and actual implementation of these actions.

While there were no substantive differences in our planned actions and actual implementation, we encountered many successes and challenges throughout the 21-24 LCAP cycle.

In the fifth grade, we faced a unique challenge with a diverse group of 45 students, including 12 newcomers and 11 students with IEPs. To address their specific needs, our ELD Specialist established a foundational group, notably for those newcomers who lacked literacy skills even in their native Spanish. Despite these hurdles, we witnessed remarkable progress among these students, partly due to our approach of providing Spanish live translation support for a subset of the group, ensuring they received the necessary knowledge and information. This was a concerted effort, with the SPED and ELD teams collaborating closely and achieving strong gains.

Across our sites, we've maintained an ELD cohort structure, further strengthened by our commitment to professional development. For instance, in Year 2, we invested in sending our ELD specialist to the EL Achieve symposium for additional training, setting the stage for the impactful work we planned for the academic year.

In mathematics, we've observed steady growth, particularly among English Learners, who have shown more substantial progress in this subject compared to others. The smooth implementation of Eureka 2.0, complemented by supplementary support from IXL based on MAP data, has been effective. This structured approach allows for targeted skill development during our REACH block. We have seen the positive results from these efforts in our Spring 2024 NWEA MAP data, where 59% of students met or exceeded their NWEA MAP Math growth goals.

Weekly teacher coaching across all staff and consistent Coach Development Meetings have ensured a unified language and structure, facilitating a coherent experience. Moving forward, we aim to place a heightened focus on reading strategies and structured instruction for EL students, starting from a younger age. This necessitates more robust coaching and professional development on English Learner differentiation, encompassing sentence stems, anchor charts, scaffolding, and gradual release, with a particular emphasis on small group supports.
Moreover, there's a clear need for stronger training for our support staff, including AIs and paraprofessionals, to provide effective Tier 2 support. This will involve deep internalization and meticulous preparation for their daily instruction, ensuring that all students, especially our English Learners, receive the targeted support they need to thrive academically.

We continued to provide a wide range of blended programming options accessible to all students, inclusive of 1:1 Chromebooks for all students. These programs were designed to scaffold classroom instruction and offer additional learning opportunities and practice outside of the traditional classroom setting. By offering diverse modalities of learning, the school aimed to cater to various learning styles and promote student engagement and achievement.

ABA continued to participate in the Quarterly All-Staff Stepback Days, where all staff members came together to analyze and create action/learning plans. These sessions focused on analyzing key school-wide data, including NWEA MAP results, attendance data, curriculum assessments, and student culture surveys. By reviewing and analyzing data, the staff collaborated to identify areas of improvement, develop strategies, and create action plans to enhance student learning, instructional practices, and overall school culture.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences between Budgeted Expenditures and Estimated Actual Expenditures.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

This LCAP was formulated during the initial stages of the COVID-19 pandemic, a period marked by unprecedented challenges including the shift to remote learning and the absence of authentic baseline data. Given the uncertain impact of the pandemic on students' academic progress and emotional well-being, our goals and targets were set against a backdrop of significant unknowns. Although we have observed growth in student outcomes, the extent of the pandemic's impact was initially unclear, affecting our ability to meet our three-year targets realistically in specific areas. This LCAP reflects our adaptability and commitment to student success in the face of such unpredictability, highlighting our ongoing efforts to address the evolving needs of our students during and beyond this global health crisis.

This is most evident in our CA School Dashboard academic desired outcomes. Based on our 2019 CA School Dashboard baseline data of Green in Math and Yellow in ELA, we set our 3-targets as “Green”, for both metrics. We did not meet our 3-year targets in ELA and Math. Reviewing and analyzing the effectiveness of our actions toward our academic metrics is front and center as we developed our new LCAP Goals and Actions. On the CA School Dashboard, our ELA and Math outcomes are as follows:

Math
- All: Orange 82.7 pts below
• EL: Red 105.4 pts below
• SPED: 111.3
• Latino: Red 96 pts below
• FRL: Orange 93.3 pts below

ELA
• All: Orange 57.5 pts below
• EL: Red 85.8 pts below
• SPED: 114.5 pts below
• Latino: Orange 70 pts below
• FRL: Orange 68.1 pts below

Our data also reveals that our students with disabilities, English Learners (Red on both ELA and Math, and Hispanic students (Red on Math) are underperforming in English Language Arts and Mathematics compared to other student groups. This disparity underscores the urgent need for targeted and intentional efforts to support our students with unique needs. Recognizing this, our new LCAP cycle will prioritize strategic interventions and tiered support mechanisms specifically designed to address the unique challenges faced by our significant student groups.

The purchase of high-quality curriculum, online programming, and technology investments ensured that we effectively had 100% of students had access to standards-aligned instructional materials and internet and devices, for use at school and at home, while also scoring a 3.8 or higher on our implementation of state standards self-reflection tool.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

We recognize that the current academic targets set were not fully met, necessitating significant revisions to our goals for the 2024-2027 cycle. These changes are rooted in a comprehensive analysis of our performance data, invaluable feedback from our educational partners, and a critical review of the effectiveness of our existing strategies.

Due to the challenges faced in meeting our predefined academic benchmarks, and recognizing the evolving needs of our student population, we have redesigned our goal structure to enhance focus and accountability.

The Actions and Metrics outlined in this current Goal 3 have evolved into two new goals for the new cycle. Our new Goal 1 is focused on academic growth for significant student groups. This goal is specifically designed to ensure that all student groups demonstrate measurable growth towards meeting or exceeding standards in English Language Arts (ELA) and Mathematics. This shift comes in response to the identified need for targeted interventions and support for our significant student groups, specifically our English Learners (Red on both ELA and Math) and our Hispanic students (Red in Math), ensuring they receive the focused attention required to elevate their academic
performance. Our new Goal 2 is to support growth and achievement for all students through strong instructional practices, informed by our assessment and data strategy. We are recommitting to support growth and achievement for all students through robust instructional practices. This goal will be informed by an integrated assessment and data strategy that aims to optimize instructional methods and outcomes across all classrooms. This goal underscores our commitment to harnessing data-driven insights to refine teaching practices and enhance student learning experiences.

Our new Goal 3 is focused on developing a healthy & thriving school environment: Given the interplay between academic success and school climate, our third goal aims to develop and cultivate a healthy and thriving school environment that fosters safety and a sense of belonging among all students. This goal will focus on implementing practices that promote a positive and inclusive school culture, which is essential for academic and social-emotional development.

These changes stem from the observed ineffectiveness of several actions within our current goals and are bolstered by feedback from our educational partners. The new goals are crafted to address specific areas that require intensified focus and innovation, ensuring that our strategies are not only reactive but also proactive in fostering an environment conducive to academic excellence and holistic development.

Our educational partners, including teachers, administrators, parents, and students, have played a critical role in shaping these new goals. Their insights into the practical aspects of educational delivery and the unique challenges faced by our student communities have been invaluable. Through regular consultations and feedback sessions, we have ensured that these goals are reflective of our collective aspirations and grounded in the realities of our educational landscape.

The strategic realignment of our LCAP goals for the 2024-2027 cycle represents a robust response to our previous shortcomings and a renewed commitment to academic excellence and student well-being. By focusing on specific student groups, strengthening instructional practices, and nurturing a supportive school environment, we are setting the stage for a comprehensive and inclusive educational experience that meets the diverse needs of our student population.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Goal Analysis

An analysis of how this goal was carried out in the previous year.
A description of any substantive differences in planned actions and actual implementation of these actions.

The Actions outlined in Goal 4 have been successfully implemented to make progress toward our goal of increasing engagement for all of our families. To foster community engagement, we held at least one community programming event per quarter, separate from regularly scheduled meetings such as SSC, ELAC, or Cafecitos. These events provided opportunities for families to come together and participate in school activities.

Our community engagement strategy has seen notable successes, particularly through the institution of "Cafecitos," monthly meetings that consistently attract 20-25 parents and are conducted in both English and Spanish. This initiative not only fosters regular communication but also integrates parent learning segments to provide valuable information and education. In an effort to streamline communication further, we transitioned from Remind to Dean's List, enhancing the effectiveness of our outreach. This move has been well-received, with both our operations team and teachers actively utilizing Dean's List for communication with parents.

Our commitment to strengthening the school-family bond is also evident in the array of events designed to welcome parents back to campus. From celebrating our 10-year anniversary with an original play written by our drama club honoring our school's namesake, Blanca Alvarado, to organizing a Winter Performance that saw a huge turnout, and hosting various seasonal events like the Halloween Parade and Spring Egg Hunt, we've cultivated a culture of strong family engagement.

The role of the parent organizer has been pivotal in this process, ensuring consistency by attending Cafecitos and parent events and leading Parent Leader Meetings. This position, which was filled mid-way through Year 2 of our LCAP, serves as a reliable point of contact for our parent community.

Looking ahead, we're in the process of establishing a new Parent Association, aimed at spearheading fundraising events in alignment with our renewal processes. This initiative, coupled with future planning to continue to sponsor our students to attend the Walden West camp, underscores the need to develop a system that encourages parent involvement in fundraising efforts, thereby enhancing our collective capacity to support enriching experiences for our students.

We continue to conduct parent leadership training meetings to empower families and equip them with the skills to advocate for their students.

Collaborating with the Senior Director of Advocacy & Community Engagement, the school formed partnerships with external parties to bring additional services and resources to students and families. The parent learning center plays a role in this process by providing training and support to develop parents' advocacy and leadership skills.
An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences between Budgeted Expenditures and Estimated Actual Expenditures.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Our Actions, as implemented during the 21-24 LCAP cycle, were effective in meeting and making progress toward our goal. We continued to strengthen our Parent Association, increased the number of events, clubs, and family attendance on campus. Some evidence of the effectiveness toward achieving our goal includes the following survey responses from our families:

- 95% of families feel welcome and heard by the school
- 95% of families feel the school does a good job of family engagement
- 97% agreed that the school listens to family voice and input when making decisions.

The effects of COVID continue to impact our families and community, which has created the need to be more flexible and creative when we think about family engagement. We continue to offer opportunities both in person and over zoom. We are continuing to strategize on practices we can implement to encourage an increased attendance at these all meetings, including more frequent direct messaging from the principal. Additionally, we also offer monthly cafecitos focusing on parent learning topics such as assessments, summer learning opportunities and communication tools.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

For the 24-27 LCAP, our Goal 4 will remain focused on family engagement. While the focus remains the same, we will undergo a few changes to enhance parent partnership and development in order to best support student achievement and wellness. The new Goal 4 will be to “Build & cultivate community and family engagement to support student achievement & wellness”. We’ve modified our actions to align to our family engagement vision at ABA, which includes the elements of parent communication, school community events and celebrations, programs and services (Parent Learning Center), parent school partnerships, and parent power. This alignment ties to the California Community Schools Partnership Program (CCSPP) Implementation Grant that ABA was awarded in May 2024, for the five year period from 2024-2029. A few key changes to the actions include:

- Parent School Partnerships: Highlight our focus on expanding parent volunteer opportunities to strengthen involvement of parents in their child's education experience
- Parent Power: Highlight our efforts to expand parent power at ABA by providing parents with leadership opportunities to advocate for their students, including: School Site Council (SSC), English Language Advisory Committee (ELAC), Parent Leader Committee, Alpha Parent Board Members, and the Parent Association
A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

**Goal Analysis**

An analysis of how this goal was carried out in the previous year.
A description of any substantive differences in planned actions and actual implementation of these actions.

In the third year of our LCAP, the addition of a Dean of Students has proven to be a substantial asset to our school community. Our school has implemented accountability and incentive systems like Owl Tickets and a school store, which are well-received by our students. The introduction of a weekly Congress for both elementary and middle school students has fostered camaraderie, highlighted by events such as staff vs. students basketball games, enhancing the sense of community within the school.

To tackle challenges with attendance and chronic absenteeism that have persisted since the onset of the pandemic, we’ve initiated home visits and offered incentives for perfect attendance, which, along with a shift from calling to texting parents, has spurred noticeable improvements in attendance rates this year. The emphasis on establishing strong procedures, expectations, and routines during the first eight weeks of school has not only created a smooth and safe learning environment but has also provided teachers with clarity regarding their expectations, placing them in a better position to support student learning effectively. As a result, we have seen notable improvements in our preliminary chronic absenteeism data for the 23-24 school year.
In addressing suspension rates, our focus has shifted towards prevention, with regular check-ins, SEL lessons, and clear communication about the consequences of not meeting behavioral expectations. This proactive approach, particularly in managing conflicts through restorative conversations before they escalate, has resulted in a shift in the nature of suspensions, moving from physical altercations to issues such as vaping. The office’s diligent efforts in tracking student behaviors in Dean’s List have proved instrumental in providing real-time data that supports our ongoing efforts to enhance student engagement and well-being. In addition, the expansion of after-school activities to include competitive sports has brought a new level of enthusiasm and support across the campus, contributing positively to the school spirit. As a result, we have seen improvements in our preliminary suspension rate data for the 23-24 school year.

Overall, while we’ve celebrated numerous successes in implementing our actions, we continue to navigate and address the challenges that arise, always with a focus on improving the school experience for our students.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences between Budgeted Expenditures and Estimated Actual Expenditures.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

In evaluating the effectiveness of our actions towards meeting Goal 5 of our LCAP: creating a welcoming learning environment where students feel safe, motivated, and challenged, we observed positive growth towards our three-year targets, reflecting the effectiveness of our actions and opportunities for continued improvement.

Family Survey Responses: Based on our Spring 2024 Family Survey, 100% of families felt a sense of belonging and connectedness to the school community, a testament to the comprehensive family engagement efforts that ABA has focused on. In addition, 95% of families felt that the school facilities are clean & welcoming, which meets our target. These outcomes highlight the effectiveness of Actions 5.5 (School Operations Accountability) and 5.6 (Facilities Improvements), which have been instrumental in enhancing the physical and communal aspects of our school environment.

Chronic Absenteeism: Similar to schools across California, ABA experienced a significant spike in chronic absenteeism and a decline in ADA following the pandemic. While we fell significantly below our original target (which was set based on pre-pandemic baseline data), we have seen significant growth in our preliminary 2023-2024 chronic absenteeism data both overall and for subgroups. This points to the effectiveness of our enhanced actions from the 23-24 school year, as well as opportunities to continue to innovate our approaches moving forward.
Suspension Rate: On the 2022 CA School Dashboard, ABA misreported suspension rate data due to a technical mapping error. ABA reported this error and the correct data to the CDE; however, the CDE refused to make this correction on the dashboard. As a result, all 2022 suspension rate data was presented on the 2023 CA School Dashboard as 0% with a performance level of High overall and by subgroup. This impacted the colors displayed on the 2023 CA School Dashboard, as All Students and the SED, SWD, and Hispanic subgroups should have shown as Orange, and the EL subgroup as Green. ABA did meet its target of maintaining suspension rates below 5%, as well as achieving the target of 0% expulsion and dropout rates. Action 5.2 (Student Behavior Data via DeansList) was successful, and the preliminary gains seen in the 23-24 school year data can be attributed to additional proactive measures we have taken including regular check-ins, SEL lessons, and restorative practices.

While we have seen improvements in our 23-24 school year suspension rates and a reduction in chronic absenteeism as a result of our actions, we did not meet our targets in this area based on the 22-23 SY CA School Dashboard data. The lingering effects of the pandemic continue to impact our community and families, with absenteeism and social-emotional needs remaining a significant focus area, similar to trends observed across the country. Our revised LCAP reflects a commitment to addressing these areas through targeted strategies and enhanced community engagement.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

In our ongoing efforts to refine and enhance our LCAP based on the current data available to us and input from our various educational partners, we have made strategic changes to the current Goal 5. In our new LCAP, this goal will be repositioned as Goal 3, reflecting a heightened focus on fostering a supportive and inclusive school environment. The new Goal 3 is articulated as: "Develop and cultivate a healthy and thriving school environment that promotes the safety and belonging of all students."

This shift in our LCAP is primarily driven by the trends identified in the CA School Dashboard and not meeting our current 3-year targets outlined in the current LCAP, particularly the Chronic Absenteeism and Suspension Rates, which are marked as Red and Orange across several student groups. The data clearly indicate a pressing need to intensify our efforts in addressing these areas to ensure that all students have the opportunity to thrive in a safe and supportive learning environment.

To address the identified issues and work towards substantial improvement, the following key shifts have been included in the new LCAP under Goal 3:

- Implementing Restorative Justice Practices: We are committed to shifting from traditional disciplinary approaches to restorative practices that aim to repair harm and restore relationships. This approach encourages accountability, fosters understanding, and provides students with the tools to resolve conflicts constructively, which is crucial in reducing suspension rates and promoting a more inclusive school culture.

- Enhancing Attendance Systems: Building on our successful work in decreasing chronic absenteeism in the 23-24 school year, ABA will maintain these existing strategies while adopting new tactics for the 24-25 SY. These include engaging Everyday Labs, an ESSA-approved evidence based strategy for addressing absenteeism, to enhance our frequency and consistency with family
communication around attendance, rolling out an attendance home visit program, and rolling out a School Attendance Review Team (SART).

- Increasing Resources Toward Student Experiences: We plan to allocate more resources towards enriching student experiences both within and beyond the classroom. By enhancing engagement through diverse and meaningful activities, we aim to strengthen students' connection to the school, thereby reducing absenteeism and improving overall student morale.
- Hiring Community Schools Staff: With our award of the CCSPP Implementation Grant, we plan to hire additional staff under the community schools model. These professionals will focus on bridging school and community resources to provide comprehensive support for students and their families, addressing external factors that impact student attendance and behavior.
- Expanding Positive Behavioral Interventions and Supports (PBIS): We will continue to solidify and expand our PBIS framework, which has been instrumental in shaping positive behaviors across our schools. By strengthening this framework, we aim to further reduce disciplinary incidents and create a positive school climate conducive to student learning and growth.

The restructuring of our LCAP goals and the specific changes under the new Goal 3 reflect our proactive stance in responding to the critical needs highlighted by the CA School Dashboard data. By prioritizing the development of a healthy and thriving school environment, we are taking decisive steps to ensure that our schools are places where all students feel safe, supported, and connected. These changes are not just about meeting metrics but are fundamentally about enhancing the educational experience and outcomes for every student we serve.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Goal Analysis

An analysis of how this goal was carried out in the previous year.
A description of any substantive differences in planned actions and actual implementation of these actions.

The Actions outlined in Goal 6 were implemented as planned. To ensure a diverse and qualified teaching staff, Alpha: Blanca Alvarado School and the Alpha Network Team have employed various strategies.
Our Spring TNTP and Staff Engagement surveys yielded remarkably strong results, a testament to the comprehensive orientation provided over the summer, coupled with continuous reinforcement of our core values and mindsets. Celebrating achievements and recognizing teachers who embody our school's principles have fostered a positive peer culture, enhancing staff morale and cohesion over the LCAP cycle.

The hiring process has been meticulously refined in close collaboration with the network Talent team, ensuring the selection of strong candidates through clear expectations communicated during the offer letter process. Additionally, the support from our network credential specialist in navigating the credential certification process has been valuable in retaining staff members, thereby maintaining continuity and stability within our team.

SLT coaches have established robust relationships with their teachers, further supported by a well-structured 8-week coverage plan that facilitates clear rotation schedules. The consistency and commitment of our Lead Team, which meets bi-weekly to engage in collaborative problem-solving, have been instrumental in driving forward our goals. These meetings, particularly the Radical Problem Solving sessions within grade bands, have empowered teacher leaders to actively contribute to our school's progress.

Our internal substitute teacher system, which allows Academic Interventionists (AIs) and Paraprofessionals (Paras) with substitute permits to step in as needed, has streamlined classroom coverage, ensuring that our goals are met without disruption. This system not only ensures continuity for our students but also provides compensation and recognition for the team members who undertake these additional responsibilities.

Looking ahead, there's a desire to reinvigorate leadership pathways for teachers by re-establishing committees, thus giving them ownership over significant events and initiatives. This approach aims to deepen engagement and foster a sense of ownership among staff, reinforcing our collaborative culture and commitment to excellence.

The school has implemented a transparent teacher salary scale, with differentiated pay based on certification status. This incentivizes teachers to obtain appropriate credentials and recognizes their expertise and qualifications. We continued to provide teacher certification and credentialing support, with a bi-annual review of assignments and credential status. This ensures that teachers have the necessary support and resources to maintain their certifications and credentials, thereby enhancing their professional growth and effectiveness.

In addition to internal professional development, teachers had the flexibility to choose external professional development opportunities aligned with their development goals. We implemented additional teacher salary and benefit compensation packages, including additional mental health and wellness days. Regular evaluations of the teacher salary scale and other compensation opportunities were conducted to ensure fair compensation compared to similar opportunities.

Lastly, teachers were developed through various means, including 1:1 coaching, professional development sessions, walkthroughs, and grade level/department meetings. These development opportunities focused on prioritized indicators from teacher and coach rubrics, enabling teachers to enhance their instructional practices and professional growth.
An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

In reviewing our actions toward achieving Goal 6 of our LCAP — to hire, develop, sustain, and value a high-quality faculty and staff — we find a blend of notable successes and areas requiring ongoing attention and enhancement.

We successfully met our target of ensuring 100% of core teachers possess the appropriate credentials or permits required for their teaching roles. This achievement can be attributed to:

- Action 6.1: Our school and network utilized a variety of strategies to hire a diverse, highly-qualified, and appropriately credentialed teaching staff. This comprehensive approach has enabled us to maintain a strong and competent teaching workforce.
- Action 6.2: We provided all teachers with support for certification and credentialing, ensuring they meet the necessary qualifications and are fully equipped to deliver high-quality education.

Additionally, we met our target of 100% of teachers receiving regular, weekly CCSS-aligned professional development, including ELD PD, facilitated by:

- Action 6.4: Ensuring teacher access to professional development has been a cornerstone of our strategy, allowing teachers to continually enhance their skills and adapt to educational best practices.
- Action 6.7: The introduction of new performance rubrics for teachers and instructional coaches has fostered a culture of continuous improvement and accountability, aligning professional development efforts more closely with the needs of our staff and students.

Despite these successes, our teacher retention rates have remained flat at 62%, which is below our desired target of 85%. This issue reflects broader trends observed across the country, where the pandemic has had a lasting impact on teacher hiring and retention. The disruptions caused by the pandemic continue to highlight the need for enhanced support and stability for our teaching staff. In addition, on the Spring 2024 TNTP survey, we fell below our target Learning Environment score; however, we did see significant improvement from Spring 2023.

To address these challenges and build on our successes, we have maintained our commitment to this goal in the new LCAP cycle and plan to intensify our efforts in several key areas as described in the next prompt. Our ongoing efforts to enhance teacher support, professional development, and retention are fundamental to achieving our overarching goal of sustaining a high-quality faculty and staff dedicated to fostering student success.
A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Due to the overall effectiveness of our ongoing efforts under this goal, the foundational objectives and actions will largely remain unchanged as they transition into the new Goal 5 in our updated plan. This decision reflects our commitment to sustaining and building upon the successful strategies we have implemented to date.

The newly designated Goal 5, which evolves from our current Goal 6, is articulated as "Hire, develop, value, and retain a high-quality faculty & staff." This revised language not only emphasizes the continuation of our commitment to our staff but also emphasizes the dual focus on both valuing and retaining our team members. This goal captures the essence of our strategic intent to foster a work environment that recognizes and nurtures the professional growth and personal well-being of our instructional and non-instructional teammates.

Our new Goal 5 will focus on several key areas throughout the new Actions. These new actions include:

- Teacher Professional Development & Coaching
- New Staff Professional Development
- Instructional Support Staff Development
- Leadership Development
- School Culture
- Hiring Strategies
- Strengthening Retention

The modifications in the targeted action steps are responsive to the feedback from our educational partners and an analysis of staff retention data. By fine-tuning our focus areas, we can better address the nuanced needs of our staff and enhance the overall efficacy of our programs. Our continued focus on professional development, leadership cultivation, and school culture is directly aligned with our theory of change: that if we develop excellent coaches, we will develop excellent educators, which will lead to improved student outcomes.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.
**Instructions**

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education’s (CDE’s) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Complete the prompts as instructed for each goal included in the 2023–24 LCAP. Duplicate the tables as needed. The 2023–24 LCAP Annual Update must be included with the 2024–25 LCAP.

**Goal Analysis**

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

A description of any substantive differences in planned actions and actual implementation of these actions.
● Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

● Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

● Describe the effectiveness or ineffectiveness of the specific actions in making progress toward the goal during the three-year LCAP cycle. “Effectiveness” means the degree to which the actions were successful in producing the desired result and “ineffectiveness” means that the actions did not produce any significant or desired result.

   o In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
   o When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.

   o Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

● Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

   o As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
     • The reasons for the ineffectiveness, and
     • How changes to the action will result in a new or strengthened approach.

Plan Summary [2024-25]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Alpha: Blanca Alvarado School (ABA) is part of the Alpha Public Schools network, whose mission is: We believe that all children have a fundamental right to an excellent education. Alpha Public Schools will ensure that all of our scholars develop the academic skills and leadership habits required to succeed in college and live with integrity.

Led by principal Jin Yun and staffed by a talented and energetic staff, ABA is a small, safe and tuition-free community school that serves students in grades TK-8. The school was named after Blanca Alvarado, a longtime public official, community leader and youth advocate in Santa Clara County. As the first in her family and community to assume public office, Blanca Alvarado's leadership provides great inspiration for our students — many of whom will be the first in their families to attend college and pave the way for their own families and communities.

Blanca Alvarado serves approximately 475 students, 88% of which are socioeconomic disadvantaged. The school’s demographic profile is 90.5% Latino, 5.7% Asian, 1.3% White, and less than 1% Filipino, Black, American Indian, and Two or More Races. We serve a student body that is 62.7% English Learner and 12.6% Students with Disabilities (Source: DataQuest 2023-24 Enrollment). There is a strong parent community that provides support to the school, staff, and students.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

With the release of the 2023 CA School Dashboard data, we are receiving performance colors for the first time since 2019. Alpha: Blanca Alvarado School (ABA) continues to focus efforts on evaluating available state and local data to identify our LCAP areas of success and greatest areas of progress that inform the development of our LCAP Goals and Actions. ABA is proud of our community of students, staff, parents and guardians that are focused and dedicated to ensure that each and every student thrives. While we continue to see the long-lasting impacts COVID-19 and distance learning on our student population, specifically in our chronic absenteeism rates, we have a lot to be
proud of and celebrate. Some of the highlights as reported by our local data include:

NWEA MAP Fall to Spring results showing that on average, students are exceeding expectations for one year of growth:
- NWEA Math Conditional Growth Index (weighted average): 1.21
- NWEA Reading Conditional Growth Index (weighted average): 0.09

Note: A CGI score within the range of -0.2 to 0.2 or greater is used as an approximation for a year of growth.

STAR Early Literacy results from April 2024 showing students at or above the grade level with reading:
- TK: 75%
- Kindergarten: 90%
- 1st grade: 55%

Preliminary Chronic Absenteeism results for the 23-24 school year showing strong progress, overall and across key subgroups:
- Overall Chronic Absenteeism: 28.6% (9.7 ppt improvement)
- Students with Disabilities: 30.2% (11.5 ppt improvement)
- English Learners: 30.1% (9.1 ppt improvement)

Family Survey results from Spring 2024 showing strong family satisfaction and engagement at ABA:
- 97% of families that agree that the school listens to family voice and input when making decisions
- 95% of Families that are satisfied with the level of physical and emotional safety

While we were encouraged by the growth we are seeing academically as outlined above, we have multiple student groups with Red performance levels and All Students with Red as detailed on the 2023 CA School Dashboard. Based on the 2023 CA School Dashboard, the indicators that have a Red performance level include the following:

English Language Arts:
English Learners: 85.8 pts below standard (Red) compared to the state average of 67.7 pts below standard (Orange)

Math:
English Learners: 105.4 pts below standard (Red)
Hispanic Students: 96 pts below standard (Red)

Chronic Absenteeism
All Students: 38.3% (Red) compared to the state average of 24.3% (Yellow)
EL Students: 39.2% (Red)
Socioeconomically Disadvantaged Students (SED): 40.5% (Red)
Hispanic: 39.8% (Red)
Students with Disabilities: 41.7% (Red)
Suspension Rate*
All Students: 3.2% (Red) compared to the state average of 3.5% (Orange)
Socioeconomically Disadvantaged Students (SED): 3.7% (Red)
Hispanic: 3.1% (Red)

*Note: On the 2022 CA School Dashboard, ABA misreported suspension rate data due to a technical mapping error. ABA reported this error and the correct data to the CDE; however, the CDE refused to make this correction on the dashboard. As a result, all 2022 suspension rate data was presented on the CA School Dashboard as 0% with a performance level of High overall and by subgroup. This impacted the colors displayed on the 2023 CA School Dashboard, as All Students and SED and Hispanic subgroups should have shown as Orange.

In response to the Red performance indicators on the 2023 CA School Dashboard performance, we have prioritized the improvement of academic outcomes for our significant student groups in our new LCAP cycle. Our first goal is dedicated to enhancing support and achieving equity in educational attainment. Below is a comprehensive overview of the targeted actions under Goal 1: All student groups will demonstrate growth towards meeting or exceeding standards in English Language Arts (ELA) and Math designed to elevate student group outcomes:

- **(Action 1.1) English Learner Supports**: Continue staffing an English Language Development specialist to provide instruction and teacher support. Utilize assessments to monitor and adjust LTEL students' progress, and provide professional development focused on effective strategies for teaching LTELs.
- **(Action 1.2) High-Quality ELD Curriculum**: Acquire and train staff in a high-quality ELD curriculum like EL Achieve, and employ assessments to monitor and refine the implementation of ELD curricula and ELA strategies.
- **(Action 1.3) Students with Disabilities Supports**: Create collaborative spaces for General and Special Education staff to focus on data-driven student accommodations and interventions in ELA and Math, using high-quality instructional materials.
- **(Action 1.4) Academic Interventionists**: Employ Academic Interventionists to support a tiered intervention strategy, facilitating small group sessions, data analysis, and integrated classroom support.
- **(Action 1.5) Supplemental Literacy Intervention**: Implement the Ignite Reading program to provide daily 1:1 virtual tutoring that focuses on foundational literacy skills.
- **(Action 1.6) Tier 1 Strategy**: Strengthen delivery of high-quality, standards-aligned, rigorous instruction with access for individual student needs through professional development and ongoing cycles of coaching, observations, and feedback. Ensure that all students have equitable access to high-quality, Common-Core aligned educational materials. Monitor student progress through curricular and formative assessments and use this data to inform instruction.

In response to our high chronic absenteeism and suspension rates, we are committed to implementing robust measures to improve attendance and culture across all student groups. Recognizing the critical role that attendance plays in academic success and student well-being, we have established Goal 3 in our new LCAP: Develop and cultivate a healthy and thriving school environment that promotes the safety and belonging of all students. To achieve this, we have outlined several targeted actions designed to enhance our attendance systems and foster a positive school culture:

- **(Action 3.4) Attendance Systems**: We will establish and uphold robust attendance systems and protocols as outlined in the Alpha Attendance Playbook. This includes building and maintaining accessible attendance data dashboards, upholding clear roles and...
responsibilities for our operations staff, leaders, teachers, and families, and ensuring accountability in adherence to attendance procedures. Additionally, we will implement Multi-Tiered System of Supports (MTSS) interventions and mitigation strategies tailored to individual student and family needs. These strategies may encompass a range of support measures, including direct follow-ups with families and students, home visits, and incentives designed to encourage regular school attendance.

- (Action 3.3) Restorative Justice Practices: Alongside improving attendance systems, we will incorporate restorative justice practices to enhance our approach to student behaviors. By focusing on restorative justice, we aim to build a school culture that values reconciliation and mutual respect, thereby making the school environment more welcoming and enhancing students’ desire to attend regularly. Restorative practices not only address behavior and discipline in a constructive manner but also contribute to a feeling of safety and belonging among students, which is crucial for encouraging consistent attendance and reducing suspensions.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

<th>Educational Partner(s)</th>
<th>Process for Engagement</th>
</tr>
</thead>
</table>
| All educational partners (administrators, teachers, non-instructional staff members, students, SSC (PAC) members, ELAC members, SELPA, and other parents of our students) | In developing our Local Control and Accountability Plan (LCAP), we embarked on a comprehensive engagement process with our key educational partners, including teachers, principals, administrators, other school personnel, parents, and students. Recognizing the invaluable insights these stakeholders bring to the table, we prioritized their feedback to assess the effectiveness of our existing LCAP goals and actions. This collaborative approach was instrumental in identifying areas for improvement and refining our strategies to enhance both academic and social outcomes for our students. The engagement process was not only about compliance but a genuine effort to ensure that our LCAP reflects the needs and aspirations of our educational community, thereby driving meaningful and sustainable improvements across our network. For the current year’s process, we redesigned our LCAP input surveys to be more robust, aiming to capture a broad spectrum of insights and reflections from the entire LCAP cycle. Understanding that each stakeholder group might provide different perspectives and priorities, the surveys were tailored to solicit specific feedback relevant to each group’s experiences and interactions with our LCAP initiatives.  
  - Survey Administration: In February 2024, we administered these detailed surveys, allowing ample time for our teachers, principals, administrators, school personnel, parents, and... |

</tr>
</tbody>
</table>

- **Educational Partner(s)**
  - Students

- **Educational Partner(s)**
  - Process for Engagement

  - **Families**
    - **LCAP Input Family Survey**: We sent out an LCAP survey to families in February 2024 asking for their feedback on the students to participate. This timing was chosen to ensure that respondents had sufficient opportunity to reflect on their experiences and provide meaningful feedback without the pressure of immediate deadlines.

  - **Direct Engagement Activities**: Following the surveys, we organized direct engagement activities, including 'Coffee with the Principal' sessions and meetings with the School Site Council (SSC) and the English Learner Advisory Committee (ELAC). These meetings served as crucial platforms for face-to-face discussions, allowing families and other educational partners to express their thoughts and concerns in a more personal and interactive setting.

  - **Drafting and Feedback on LCAP Goals and Actions**: With the initial feedback in hand, principals and network leadership convened to draft the new set of LCAP goals and actions. This draft then underwent a further review during dedicated feedback sessions, enabling stakeholders to review the proposed goals and metrics and suggest adjustments based on their direct experiences and expert insights.

  - **Public Hearing and Final Adjustments**: Finally, we presented the revised LCAP draft at a public hearing, providing a formal opportunity for all members of our community to engage with and provide feedback on the proposed plan. This session was crucial for ensuring transparency and inclusivity in the final adjustments of our LCAP.

This comprehensive timeline of engagement reflects our commitment to a genuinely collaborative process, valuing the input of our entire educational community. By structuring our engagement to include both broad and targeted feedback mechanisms, we ensure that our LCAP is reflective of our collective vision and directly addresses the needs and aspirations of our students and their families, ultimately leading to improved academic and social outcomes.

|                       | Annual Student Survey: Student Culture Surveys were administered two times a year. Questions centered on school safety, belonging, student voice, classroom preparation, and teacher evaluation questions. |

| SELPA                  | Our LCAP was sent to our El Dorado County SELPA for review and comment in June 2024. |

| Board of Directors     | We held a public hearing prior to the official approval of our LCAP to provide the public an opportunity to review and comment on our LCAP Draft on June 12, 2024 and the LCAP was approved at the board meeting on June 18, 2024. |
Throughout our Local Control and Accountability Plan (LCAP) engagement process, we gathered invaluable feedback from our educational partners, which significantly shaped the specifics of our plan. Here’s how we’ve incorporated this feedback into our LCAP:

Theme: Enrichment and Opportunities for Students
Educational partners expressed a strong desire for more enrichment and broader opportunities for students. In response, we have taken decisive actions under our newly established Goal 3 Develop and cultivate a healthy and thriving school environment that promotes the safety and belonging of all students:

- **Action 3.6: Student Experiences** - We are committed to increasing the resources allocated to enhance non-academic student experiences, including student events, field trips, and student council activities. These initiatives aim to foster a vibrant community spirit and enrich students' school lives.
- **Action 3.8: Expanded Learning Programs** - We continue to enhance our expanded learning offerings. By leveraging external partnerships and enhancing offerings in athletics and clubs, we provide students with diverse opportunities to learn and grow beyond the traditional classroom setting.

Theme: Support for School Culture and Student Behavior
Feedback from our educational partners emphasized the need for additional support mechanisms addressing school culture and student behavior. To meet this need, we have introduced targeted actions:

- **Action 3.3: Restorative Justice Practices** - We are incorporating restorative justice approaches to positively influence student behavior, promoting a culture of respect and mutual understanding.
- **Action 3.1: Monitor & Respond to Student Culture & Behavioral Data** - We will maintain our Dean of Students to support multi-tiered intervention strategies. Additionally, tools like Dean’s List and student culture surveys help us track behavior and culture data, allowing for targeted interventions.
- **Action 3.10: Positive Behavioral Intervention and Support Systems** - Our plan solidifies and expands our PBIS framework, ensuring a supportive and inclusive school environment conducive to student learning and personal growth.

Theme: Supports for English Learners and Significant Student Groups
A critical theme from our engagement process was the need for intensified support for our English Learners and specific student groups. This led to the creation of student group focused Goal 1: Subgroup Focus: All student groups will demonstrate growth towards meeting or exceeding standards in English Language Arts (ELA) and Math. The following actions to support this goal and meet the needs of our educational partners include:

- **Action 1.1 & 1.2: English Learner Supports and High-Quality ELD Curriculum** - These actions aim to enhance language acquisition and proficiency among English learners.
- **Action 1.3: Students with Disabilities Supports** - We provide dedicated support to meet the unique needs of these students.
- **Action 1.4: Academic Interventionists** - This actions focuses on providing immediate academic support to students who are falling behind.
- **Action 1.5: Supplemental Literacy Intervention** - Additional resources are directed towards strengthening literacy among students needing extra help.

Theme: Data Focus
Recognizing the importance that data plays in making decisions around strategy, intervention, and supports, we have introduced specific actions under Goal 2 and 3 to bolster how we are leveraging data:

- Action 2.1: Strengthen Instructional Practices - Our instructional staff will engage in differentiated professional development (PD) tailored to the specific criteria outlined in Alpha’s Teacher Rubric and our Vision of Excellent Teaching. Coaches will monitor the implementation of PD skills and learning through regular coaching sessions and walkthroughs, ensuring that teaching practices are consistently aligned with our high standards and data.
- Action 2.4: Data Strategy - We continue to develop and refine our tools for data analysis to ensure effective gathering, monitoring, and use of instructional data. Strengthening data literacy is a key component, supporting the use of data during individual coaching sessions, leadership team meetings, and department meetings. Additionally, site data stories will be effectively delivered at All-Staff Stepback Days to facilitate a comprehensive analysis of data and the creation of targeted action plans.
- Action 3.1: Monitor & Respond to Student Culture & Behavioral Data - Maintain a Dean of Students to support students through multi-tiered intervention strategies and train staff on practices to uphold a healthy & thriving environment. We will continue to leverage Dean’s List, student culture survey, and other systems to track student behavior and culture data disaggregated by significant student groups in order to inform problem solving and targeted interventions.

Theme: SEL Implementation

In response to the clear need for strengthened social-emotional learning (SEL) identified by our educational partners, we have prioritized enhancing our SEL support for students. Recognizing the profound impact of SEL on students' ability to succeed both academically and personally, we have introduced a dedicated action under Goal 3:

- Action 3.2: SEL Curriculum - We will select and implement a comprehensive SEL curriculum that will be integrated into daily instruction across all grade levels. This curriculum aims to equip students with essential social and emotional skills such as empathy, self-regulation, and effective communication, which are crucial for their overall development and well-being. To ensure the successful implementation of the SEL curriculum, we will conduct targeted professional development for our educators and staff. These sessions will provide them with the necessary tools, resources, language, and skills to effectively deliver the SEL curriculum. By empowering our teachers with these capabilities, we aim to create a supportive and understanding environment that fosters emotional resilience and social competence among students.

Each of these themes and the corresponding actions are deeply rooted in the feedback from our educational partners. Their insights have been instrumental in shaping a responsive and dynamic LCAP, ensuring that we address the diverse needs of all students while fostering an environment that supports academic success and personal development.
### Goals and Actions

#### Goal

<table>
<thead>
<tr>
<th>Goal #</th>
<th>Description</th>
<th>Type of Goal</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Focused Subgroup Supports: All student groups will demonstrate growth towards meeting or exceeding standards in English Language Arts (ELA) and Math.</td>
<td>Broad Goal</td>
</tr>
</tbody>
</table>

**State Priorities addressed by this goal.**

- Priority 2: State Standards (Conditions of Learning)
- Priority 4: Pupil Achievement (Pupil Outcomes)

**An explanation of why the LEA has developed this goal.**

The rationale for establishing the academic goal focused on our subgroups, particularly in English Language Arts (ELA) and Math, is grounded in our commitment to equity and the urgent need to address the educational disparities exacerbated by the pandemic. The pandemic's impact on education has been profound and uneven. Our subgroups - English Learners, Students with Disabilities, Socio-Economically Disadvantaged students, and Hispanic students - have faced significant challenges that have resulted in disproportionate outcomes compared to statewide averages. As a result, on the CA Dashboard in the 22-23 SY, our subgroups had the following results on the academic indicators:

- English Learners: Red in ELA and Math
- Socioeconomically Disadvantaged: Orange in ELA and Math
- Hispanic: Red in Math, Orange in ELA
- Students with Disabilities: No dashboard color - 114.5 pts below standard in ELA; 111.3 pts below standard in Math

In ELPI, our English Learners had a 43.3% progress rate and were Orange on the CA School Dashboard.

Our decision to prioritize this goal is in direct response to feedback from our educational partners, including teachers, staff, and parents, who have consistently emphasized the necessity of improving academic outcomes for these subgroups. The collective insights gathered through the LCAP engagement process highlighted a shared understanding that targeted efforts are needed to ensure all students have equitable opportunities to succeed.

To address these disparities, we are committed to implementing comprehensive strategies that include enhancing our Tier 1 instructional practices to ensure a strong foundation of quality teaching and learning for all students. We recognize the importance of specialized intervention programs that provide additional support to students who are not meeting standards. Our approach includes strengthening English Language Development (ELD) support to better assist English Learners in achieving proficiency in ELA, and enhancing academic and behavioral supports for students with special education needs. These targeted interventions are designed to address the specific learning gaps and challenges faced by these students.

| 1.6     | Tier 1 Strategy      | At ABA, where most students are part of one or more identified subgroups, and our EL students were Red in ELA and Math, and Hispanic students Red in Math on the CA School Dashboard, we recognize the importance of strengthening our Tier 1 instruction. By doing this, we will elevate educational outcomes for all student groups, with a dedicated focus on bringing our EL and Hispanic students out of the Red. Our action plan includes the following components:  
• Providing staff with ongoing professional development focused on learning design, a culturally responsive teaching approach, and on internalization practices to maximize effective implementation of the curriculum. This utilizes an assets-based approach, and our curriculum represents a variety of voices and experiences to reflect our students' identities.  
• Focusing on strengthening teacher skill in the delivery of standards-aligned, rigorous Tier 1 instruction with access through professional development and coaching on integrated strategies and scaffolds  
• Building teacher skill in planning from data specific to subgroups (Hispanic, ELs, SWDs, and SED), identifying curriculum scaffolds and supports for students, and collecting data on the results to further inform instruction                                                                                                                                                                                                                                                                                                                                 | No          |              |

<tr>
<th>Goal #</th>
<th>Description</th>
<th>Type of Goal</th>
</tr>
</thead>
<tbody>
<tr>
<td>2</td>
<td>Support growth and achievement for all students through strong instructional practices, informed by our assessment and data strategy</td>
<td>Broad Goal</td>
</tr>
</tbody>
</table>

State Priorities addressed by this goal.

- Priority 2: State Standards (Conditions of Learning)
- Priority 4: Pupil Achievement (Pupil Outcomes)
- Priority 7: Course Access (Conditions of Learning)
- Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Alpha is committed to supporting the growth and achievement for all students through strong instructional practices, informed by our assessment and data strategy. This goal underscores our dedication to providing a high-quality, comprehensive education that is tailored to the needs of our diverse student population, ensuring every student has the opportunity to excel.

Our 2023 CA School Dashboard ELA and Math outcomes for all students highlights the need to create this goal. We saw declines in both ELA and Math for all students compared to our 2022 Dashboard results. With the work currently taking place and the initiatives outlined in this new LCAP, we are excited to see growth in our ELA and Math results moving forward.

By focusing on strong instructional practices, we are committed to delivering a rigorous, standards-aligned curriculum. Our assessment and data strategy will give us a structured process to gather meaningful data about student learning, which informs instructional decision-making and allows for targeted interventions when necessary. This data-driven approach enables us to identify gaps in learning, monitor progress, and adjust our teaching strategies to better meet the needs of each student.

Lastly, offering a broad course of study is fundamental to providing a whole academic experience that prepares students for future success. This means going beyond the core subjects to include the arts, sciences, technology, and other areas of study that foster a well-rounded education. By providing a diverse range of learning opportunities, we not only cater to the varied interests and talents of our students but also help them develop critical thinking, creativity, and other essential skills that are vital in today’s world.

Goals and Actions

Goal

<table>
<thead>
<tr>
<th>Goal #</th>
<th>Description</th>
<th>Type of Goal</th>
</tr>
</thead>
<tbody>
<tr>
<td>3</td>
<td>Develop and cultivate a healthy and thriving school environment that promotes the safety and belonging of all students.</td>
<td>Broad Goal</td>
</tr>
</tbody>
</table>

State Priorities addressed by this goal.

- Priority 1: Basic (Conditions of Learning)
- Priority 5: Pupil Engagement (Engagement)
- Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

In light of the lingering effects of the pandemic, our commitment to cultivating a healthy and thriving school environment is critical. The pandemic and its aftermath have highlighted the need for robust support systems that cater to the holistic needs of our students, encompassing their academic, social, and emotional well-being. Our approach must include evidence-based interventions and proactive strategies to reduce absenteeism and suspensions, thereby ensuring every student feels a sense of belonging and safety in our school community. This is evident as our current CA School Dashboard Chronic Absenteeism indicator is Red overall and for all subgroups. In addition, the Suspension Rate indicator is Red overall and for our Hispanic and SED subgroups.

By focusing on these areas, we not only adhere to our educational mission but also lay the groundwork for our students to succeed in a post-pandemic world. This goal encapsulates our dedication to creating a resilient, supportive, and inclusive school environment that empowers every student to achieve their fullest potential.

Our educational partners continue to emphasize the importance of the work toward maintaining a school environment where students feel safe and a sense of belonging. Throughout this new LCAP cycle, we will put resources, time, and development toward key initiatives, including restorative justice practices, positive behavioral interventions and supports (PBIS) systems, response to student culture and behavioral data, an SEL curriculum, and a robust attendance tracking system, among other actions highlighted throughout this goal.

| 3.4      | Attendance Systems  | **All Students:**  
- Continue to refine, train, and track accountability to the attendance systems and protocols according to the Alpha Attendance Playbook, which outlines all systems and procedures for how we address chronic absenteeism.  
- Maintain & refine consistent structures to uphold accountability on procedures including regular data and action planning sessions during professional development, monthly meetings between Network Operations and the School Operations Manager (SOM), bi-weekly ops team attendance check-ins, and regular individual check-ins between Principal & SOM.  
- Build and sustain access to attendance data dashboards. Attendance dashboards provide the ability to filter data by subgroups and identify variances in data. Utilize attendance dashboards in regular school-level attendance data meetings.  
- Based on data, perform targeted attendance interventions such as family/student follow-ups, home visits, and incentives.  
- Engage EverydayLabs to enhance our frequency and consistency with family communication around attendance, to further improve our level of data analysis and action planning with an upgraded attendance dashboard, and to benefit from their professional learning resources around chronic absenteeism. Everyday Labs is a ESSA-approved evidence based strategy for addressing absenteeism.  
- Roll-out our School Attendance Review Team (SART) structure to address students who are experiencing extremely high levels of chronic absenteeism. This SART was piloted this year as a district (Alpha)-level intervention. We have refined our nomination process, as well as further developed a standard agenda and contract/attendance plan that we will utilize. | $67,276.00   | Yes          |

<th>Description</th>
<th>Type of Goal</th>
</tr>
</thead>
<tbody>
<tr>
<td>4</td>
<td>Build &amp; cultivate community and family engagement to support student achievement &amp; wellness</td>
<td>Broad Goal</td>
</tr>
</tbody>
</table>

State Priorities addressed by this goal.

- Priority 3: Parental Involvement (Engagement)
- Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

During this new LCAP cycle, we will continue to focus on Alpha’s pillars of building an authentic community with families in support of student learning: communication & transparency, authentic engagement, and partnership in decision making. Our family survey data continues to show that our strong relationships and engagement with our families are a bright spot for our school:

- 100% of families feel a sense of belonging & connectedness to the school community
- 95% of families are satisfied with the level of physical and emotional safety
- 97% of families agree that school listens to family voice in input and decision making.

Input received from our educational partners through the LCAP engagement process highlighted the need to build upon the successes this year of:

- The consistency and quality of communication;
- Frequency and attendance of school events and workshops
- Partnership in decision making within systems and parent group structures, such as SSC and ELAC

| 4.1      | Parent Communication | Strengthen family communication strategies to capture authentic input and feedback. Strategies include:  
- Drive usage of our family communication platform  
- Support strong response rates in family surveys (2 times per year)  
- Drive high attendance at family conferences (3 times per year)  

In order to mitigate language barriers for our significant population of Hispanic families, many of whose primary language is Spanish, the school invests in the following practices:  
- Distribute all key family communications electronically and in paper flier form in both English and Spanish  
- Utilize a family engagement platform with strong accessibility for Spanish-speaking families, including:  
  - Video resources to support families  
  - Supports for language set-up, to enable automatic translation of posts and messages  
  - Easy to post videos & pictures to enable access  
  - Staff a team with the skillset to communication with families in their native language, helping to ensure families feel supported and can partner with school leadership  
  - Provide extensive supports for team members that do not speak Spanish, providing oral translation and materials translation for all meetings and programming, including quarterly conferences, SST meetings, and ongoing teacher communications.  
- Emphasize video communication to promote further access for some families with literacy needs. | $98,038.00  | No           |

<th>Description</th>
<th>Type of Goal</th>
</tr>
</thead>
<tbody>
<tr>
<td>5</td>
<td>Hire, develop, value, and retain a high-quality faculty &amp; staff</td>
<td>Broad Goal</td>
</tr>
</tbody>
</table>

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)

An explanation of why the LEA has developed this goal.

Developing and retaining fully credentialed and high-quality educators is a critical enabler for student success. However, given the teacher shortage that we are experiencing in the Bay Area, it has grown increasingly competitive to hire and retain strong educators for our school. To address this, we have established the following theory of change at Alpha: If we develop excellent coaches, then they will develop excellent educators, which will result in improved student outcomes. Therefore, we are focused on continuing to invest heavily in internal and external professional development and coaching of our leaders, teachers, and instructional staff. We are creating leadership pathways for staff members to grow and stay at Alpha, we regularly review our compensation and benefits packages, and we are using a variety of recruitment strategies to attract high-quality talent to ABA.

All of stakeholder groups, through the LCAP / initiative setting process, highlighted the need to continue this goal into our next 3-year cycle, which emphasizes the importance of hiring, developing, and retaining high quality faculty and staff as a key enabler in our success in achieving all of our other goals.

Required Descriptions

**LEA-wide and Schoolwide Actions**

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

| 2.4               | **Action:** Data Strategy  
**Need:** Our English learners and socioeconomically disadvantaged (SED) students are currently performing below all students in both ELA and Math as measured by the CA School Dashboard.  
ELA  
All Students: 57.5 pts below standard EL Students: 85.8 pts below standard SED Students: 68.1 pts below standard  
Math  
All Students: 82.7 pts below standard EL Students: 105.4 pts below standard SED Students: 93.3 pts below standard | Our data strategy action, designed to collect, analyze, and respond to academic data, will specifically meet the needs of our unduplicated population by enabling targeted interventions and differentiated instruction. Our data dashboards allow us to analyze student subgroup data and be proactive in identifying and addressing variances in our results. By using data to identify trends and potential challenges early, our school can deploy resources and supporting strategies in an effective, timely way. This data-driven approach not only supports individualized student success but also fosters an environment that adapts to and meets the evolving needs of our unduplicated student body. |                                      |

<tr>
<td><strong>2.5</strong></td>
<td><strong>Action:</strong> Online Platforms &amp; Technology</td>
<td>Our technology action is strategically designed to meet the needs of our unduplicated population by ensuring equitable access to digital resources and enhancing learning opportunities for our students. By providing a variety of online programs accessible to all students, the school enables scaffolding of classroom instruction and offers additional learning and practice outside of class. This accessibility is crucial for unduplicated pupils who may not have similar educational support at home. Implementing a 1:1 environment where each student receives a Chromebook and access to a hotspot ensures that all students, regardless of their socioeconomic status, have the necessary tools to access digital learning platforms. This is particularly important for unduplicated students who might otherwise lack the technology to participate fully in digital learning activities. Providing these tools helps bridge the digital divide and ensures that all students can benefit from technology-enhanced learning both in and out of the classroom.</td>

<tr>
<td>3.1 Action:</td>
<td>Monitor &amp; Respond to Student Culture &amp; Behavioral Data</td>
<td>Maintaining a Dean of Students who is focused on multi-tiered intervention strategies ensures that behavioral issues are addressed at various levels of intensity, tailored to the needs of individual students. This role is crucial in developing and overseeing interventions before behaviors escalate to the point of suspension, especially for unduplicated students who may face systemic challenges that affect their behavior. Training staff on practices to uphold a healthy and thriving environment equips them with the skills to manage classroom behaviors effectively and inclusively. By fostering an understanding of diverse student backgrounds and the specific challenges faced by unduplicated students, staff can implement more empathetic and effective disciplinary practices that reduce the need for suspensions which benefits all students.</td>
<td></td>

| We heard from our educational partners for the need to continue offering focused teacher and instructional support teams professional development and coaching to ensure all staff are equipped to meet the needs of all students.  
Scope: LEA-wide | Professional development and coaching equips instructional support staff, who frequently work 1:1 and in small groups with our unduplicated students, with effective strategies and instructional techniques, improving their ability to deliver high-quality education tailored to diverse learning needs. For unduplicated students, who may face additional academic challenges, having skilled support staff is crucial for ensuring that their academic needs are met effectively. | 5.1: % of teachers appropriately assigned and credentialed  
5.2: Teacher sense of safety and connectedness |
| **5.6**  
Action: Credential / Certification Support  
Need: Ensuring all teachers that are providing instruction for unduplicated students are credentialed and have appropriate certifications.  
Scope: LEA-wide | Providing teachers with credential and certification support directly benefits unduplicated populations by ensuring that students have access to qualified and highly skilled educators. While this action is principally directed at supporting our unduplicated populations to ensure they have teachers who are appropriately credentialed, all students benefit from having 100% of teachers in the building fully credentialed.  
By supporting teachers in obtaining and maintaining their credentials and certifications, schools ensure that educators are up-to-date with current educational standards and practices. This leads to higher quality teaching, which is crucial for students from unduplicated populations who may need more structured and effective educational support to overcome socioeconomic and language barriers.  
Credential programs often include specialized training that equips teachers to better address the needs of diverse learners, including those from unduplicated populations. This training might cover areas such as English language development, special education, and culturally responsive learning environments.

<td>EL Students: 105.4 pts below standard</td>
<td>practices in all classroom settings. Within this framework, ELs benefit from integrated language supports that help them access complex texts and engage with grade-level content, which is crucial for closing gaps in ELA and Math. By continuing to monitor implementation of strategies through coaching, observations, and walkthroughs, the ELD Specialist and coaches will be able to assess the impact of professional development and ensure strategies are being effectively implemented in the classroom to support ELs. To address the needs of our long-term English Learners, several actions are being implemented to increase and improve outcomes. Utilizing both formative and summative assessments to monitor LTELs' progress allows for timely identification of learning gaps and needs. This ongoing assessment process is key to adapting instruction that targets language proficiency and academic achievement. Providing differentiated instruction tailored to the unique needs of LTELs ensures that these students receive the necessary academic support to succeed in their subject areas, particularly in ELA and Math. Additionally, delivering ongoing professional development for teachers focuses on equipping them with effective strategies for teaching LTELs. This includes culturally responsive teaching practices and scaffolding techniques, which are essential for creating inclusive classrooms that cater to the diverse needs of LTELs.</td>

EL Students: 85.8 pts below standard  
Math  
All Students: 82.7 pts below standard  
EL Students: 105.4 pts below standard | **Scope:** Limited to Unduplicated Student Group(s) |  |

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

**Additional Concentration Grant Funding**
A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

As named above, the school was able to leverage increases associated with additional concentration grant funding to support its LCAP priorities:

**Goal 1: Focused Subgroup Supports:** All student groups will demonstrate growth towards meeting or exceeding standards in English Language Arts (ELA) and Math.
Goal 2: Support growth and achievement for all students through strong instructional practices, informed by our assessment and data strategy
Goal 3: Develop and cultivate a healthy and thriving school environment that promotes the safety and belonging of all students.
Goal 4: Build & cultivate community and family engagement to support student achievement & wellness
Goal 5: Hire, develop, value, and retain a high-quality faculty & staff

With the additional concentration funding projected to be approximately $ we were able to fund additional positions for instructional support that focus on providing tiered support and intervention for our unduplicated populations.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
  - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).

  **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC
Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.
Plan Summary

Purpose
A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA’s community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information
A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA’s LCAP.

- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance
A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA’s annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;

- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or

- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

Reflections: Technical Assistance
As applicable, a summary of the work underway as part of technical assistance.
Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement
An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified
A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools
A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness
A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose
Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements
2024-25 Local Control and Accountability Plan for Alpha: Blanca Alvarado School
School districts and COEs: EC sections 52060(g) (California Legislative Information) and 52066(g) (California Legislative Information) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: EC Section 47606.5(d) (California Legislative Information) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE’s LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see Education Code Section 52062 (California Legislative Information);
  - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of EC Section 52062(a).
• For COEs, see Education Code Section 52068 (California Legislative Information); and

• For charter schools, see Education Code Section 47606.5 (California Legislative Information).

• **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the Education Code sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

### Instructions

**Respond to the prompts as follows:**

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

**Complete the table as follows:**

<table>
<thead>
<tr>
<th>Educational Partners</th>
</tr>
</thead>
<tbody>
<tr>
<td>Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.</td>
</tr>
</tbody>
</table>

**Process for Engagement**

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.
• A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

• An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

• For the purposes of this prompt, this may also include, but is not necessarily limited to:
  • Inclusion of a goal or decision to pursue a Focus Goal (as described below)
  • Inclusion of metrics other than the statutorily required metrics
  • Determination of the target outcome on one or more metrics
  • Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
  • Inclusion of action(s) or a group of actions
  • Elimination of action(s) or group of actions
  • Changes to the level of proposed expenditures for one or more actions
  • Inclusion of action(s) as contributing to increased or improved services for unduplicated students
  • Analysis of effectiveness of the specific actions to achieve the goal
  • Analysis of material differences in expenditures
  • Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
  • Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that
is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal**: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
  - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.

- **Broad Goal**: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.

- **Maintenance of Progress Goal**: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

### Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in EC sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of EC sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

**Focus Goal(s)**

<table>
<thead>
<tr>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>The description provided for a Focus Goal must be specific, measurable, and time bound.</td>
</tr>
<tr>
<td></td>
</tr>
<tr>
<td>- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.</td>
</tr>
<tr>
<td>- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.</td>
</tr>
</tbody>
</table>

**Type of Goal**

Identify the type of goal being implemented as a Focus Goal.

**State Priorities addressed by this goal.**

Identify each of the state priorities that this goal is intended to address.

**An explanation of why the LEA has developed this goal.**
Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

**Description**

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
  - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
  - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

**Type of Goal**

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

**State Priorities addressed by this goal.**

Identify each of the state priorities that this goal is intended to address.

**An explanation of why the LEA has developed this goal.**

Explain why the LEA has chosen to prioritize this goal.
• An explanation must be based on Dashboard data or other locally collected data.

• LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.

• LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

• In addition to this information, the LEA must also identify:
  o The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

• Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).

• This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: EC Section 42238.024(b)(1) (California Legislative Information) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Describe what the LEA plans to achieve through the actions included in the goal.

• The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

• The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.

• A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.
Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

**Maintenance of Progress Goal**

**Description**

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

**Type of Goal**

Identify the type of goal being implemented as a Maintenance of Progress Goal.

**State Priorities addressed by this goal.**

Identify each of the state priorities that this goal is intended to address.

**An explanation of why the LEA has developed this goal.**

Explain how the actions will sustain the progress exemplified by the related metrics.

**Measuring and Reporting Results:**

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
• **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.

  o These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

• **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:

  o The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or

  o The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

Complete the table as follows:

<table>
<thead>
<tr>
<th>Metric #</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Enter the metric number.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Metric</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Baseline</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Enter the baseline when completing the LCAP for 2024–25.</td>
</tr>
</tbody>
</table>

  o Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).

  o Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.

  o Indicate the school year to which the baseline data applies.

  o The baseline data must remain unchanged throughout the three-year LCAP.

  ▪ This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain
accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.

- If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.

  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

### Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
  
  - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

### Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
  
  - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

### Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
  
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

### Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
  
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.
Timeline for school districts and COEs for completing the “Measuring and Reporting Results” part of the Goal.

**Goal Analysis:**

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

**Note:** When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as "Not Applicable."

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
  - Include a discussion of relevant challenges and successes experienced with the implementation process.
  - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.
A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.

  - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.

  - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.

  - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

  - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
    - The reasons for the ineffectiveness, and
    - How changes to the action will result in a new or strengthened approach.

Actions:
Complete the table as follows. Add additional rows as necessary.

<table>
<thead>
<tr>
<th>Action #</th>
<th>Title</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

- Enter the action number.

- Provide a short title for the action. This title will also appear in the action tables.

- Provide a brief description of the action.
For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.

These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

**Total Funds**

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

**Contributing**

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.

  - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

**Actions for Foster Youth:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

**Required Actions**

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
  - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
  - Professional development for teachers.
  - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.
• LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
  o The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
  o These required actions will be effective for the three-year LCAP cycle.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose
A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in EC Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with EC Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements
An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (EC Section 42238.07[a][1], EC Section 52064[b][8][B]; 5 CCR Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for any action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:
  • How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
  • How the action meets the LEA’s goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).
LEA-wide and Schoolwide Actions
In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only
Actions provided on an LEA-wide basis at school districts with an unduplicated pupil percentage of less than 55 percent must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a Schoolwide basis for schools with less than 40 percent enrollment of unduplicated pupils must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions
Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

LCFF Carryover — Percentage
• Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

**LCFF Carryover — Dollar**

• Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

**Total Percentage to Increase or Improve Services for the Coming School Year**

• Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

**Required Descriptions:**

**LEA-wide and Schoolwide Actions**

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

**Identified Need(s)**

Provide an explanation of the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

**How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis**

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

• As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

**Metric(s) to Monitor Effectiveness**

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

**Note for COEs and Charter Schools:** In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

**Limited Actions**

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

**Identified Need(s)**

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA’s needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

**How the Action(s) are Designed to Address Need(s)**

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

**Metric(s) to Monitor Effectiveness**

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.

- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
• For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA’s current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

• An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

• Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

• An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

• In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

• Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
  
  o The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.

- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.

- The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.

- The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

### Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

### Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.

- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8).
Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.

- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.

- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. *This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.*

- **Goal #:** Enter the LCAP Goal number for the action.

- **Action #:** Enter the action’s number as indicated in the LCAP Goal.

- **Action Title:** Provide a title of the action.

- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering “All,” or by entering a specific student group or groups.

- **Contributing to Increased or Improved Services?** Type “Yes” if the action is included as contributing to meeting the increased or improved services requirement; OR, type “No” if the action is not included as contributing to meeting the increased or improved services requirement.

- If “Yes” is entered into the Contributing column, then complete the following columns:
  - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
Unduplicated Student Group(s): Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.

Location: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools.” If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans.” Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span**: Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year,” or “2 Years,” or “6 Months.”

- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.

- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

  - **Note**: For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.

- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.

  - **Note**: Equity Multiplier funds must be included in the “Other State Funds” category, not in the “LCFF Funds” category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA’s LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.

- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.

- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.

- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as
a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.

- As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA’s current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

**Contributing Actions Table**

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

**Annual Update Table**

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

**Contributing Actions Annual Update Table**

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants**: Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.

- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
• **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).

  o Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

**LCFF Carryover Table**

• **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

• **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

**Calculations in the Action Tables**

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

**Contributing Actions Table**

• **4. Total Planned Contributing Expenditures (LCFF Funds)**

  o This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.

• **5. Total Planned Percentage of Improved Services**

  o This percentage is the total of the Planned Percentage of Improved Services column.

• **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
Contributing Actions Annual Update Table
Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display "Not Required."

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**
  - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).

- **7. Total Estimated Actual Expenditures for Contributing Actions**
  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).

- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).

- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.

- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.

- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table
- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)

- This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).

12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

13. LCFF Carryover — Percentage (12 divided by 9)

- This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
